Reed High School: Everything in between. It's all there in black & white.

At the New Year assembly, Jordan Naviaux and his sister Becky competed in the tradition of the Senior-Freshmen Sibling induction, this year was a slip and slide competition because the assembly was on the football field. This was the first assembly on the field in over four years, because thanks to a leaky water-cooled drill used to install volleyball standards, the gym floor had to be replaced this year.

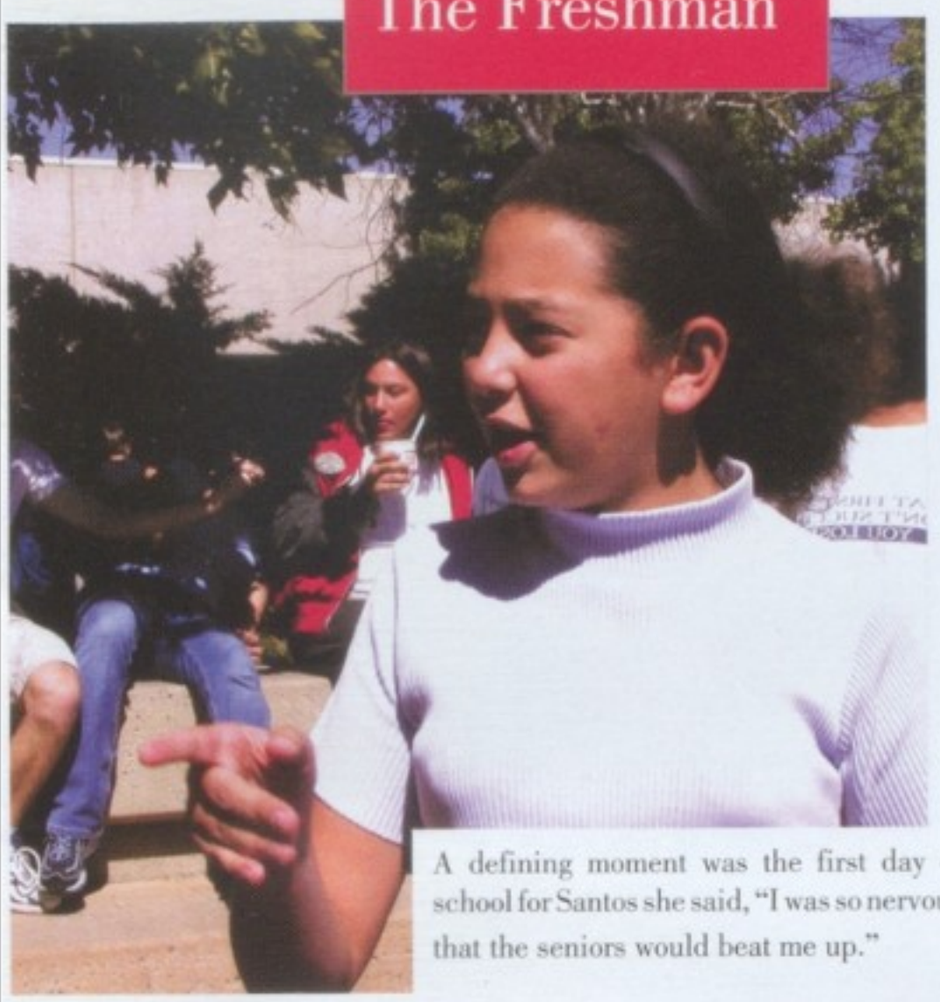
Everything in between:

No person, place or thing can be defined in it's entirety. Reed is no exception. Defining everything would be impossible, however we find ourselves trying to do just that in high school. Define who we are, what we want to do or who we will become.

The Freshman



A defining moment was the first day of school for Santos she said, "I was so nervous that the seniors would beat me up."

The Sophomore

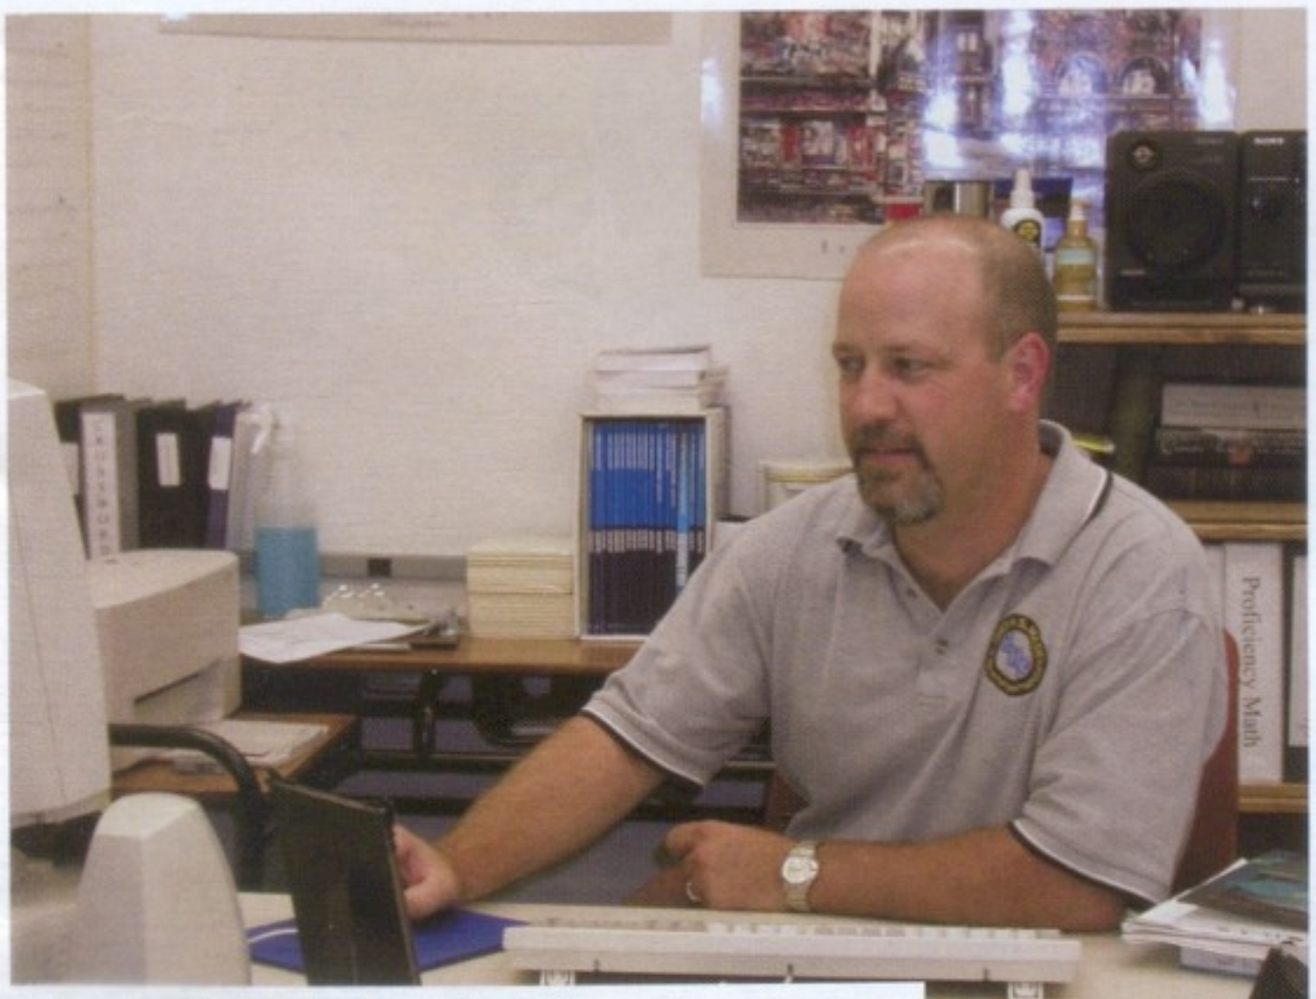
Having a year experience made all the differnce for this sophomore, her defining moment was, "Taking more advanced classes, not getting lost and of course knowimg my way around." -Dalia Gerdel

"It is the stage of our life were we make important decisions for our future. It is a year to challenge yourself, work hard at the same time and to have fun. The good and bad memories, joining clubs sports and hanging with friends, shapes our highschool years, and makes it all the better." -Yen -Long

The Junior

Senior's defining moment is recieving their caps and gowns, "It's a reality check, it lets you know that your really graduating, that your almost done with this section of your life. -Melissa Pittman

The Senior



"A word to define teaching is multifaceted because I do so much more then just teach." He also likes our age group and said, "It is so cool to get paid to hangout with people I like." -David Sayer

Freshmen show there Raider pride at the New Year assembly with great enthusiasm.

All together

The definition:

Reed is a senior high school located in Sparks, Nevada. For the 2002-2003 school year, 2,168 students are enrolled, with an expected graduating class of 500. Edward C. Reed (after whom the school is named) was a judge in Northern Nevada who is still alive today.

The Sophomore

Some defining moments of being a sophomore are, "Seeing the look on freshmen's faces, when they see the seniors are tall and have facial hair... Also when you and your friends get cars. "

-Tauni Bradley

"I have been through it all from the first day of high school to the last day of high school... I have the knowledge to know life extends beyond high school, but it's the greatest time you will ever have."

-Mark Burkhardt

The Senior

Being a teacher is a priviledge. "I like the atmosphere here better, the kids just seem nicer... Anytime a student learns something that you have taught them, is the greatest moment of being a teacher."

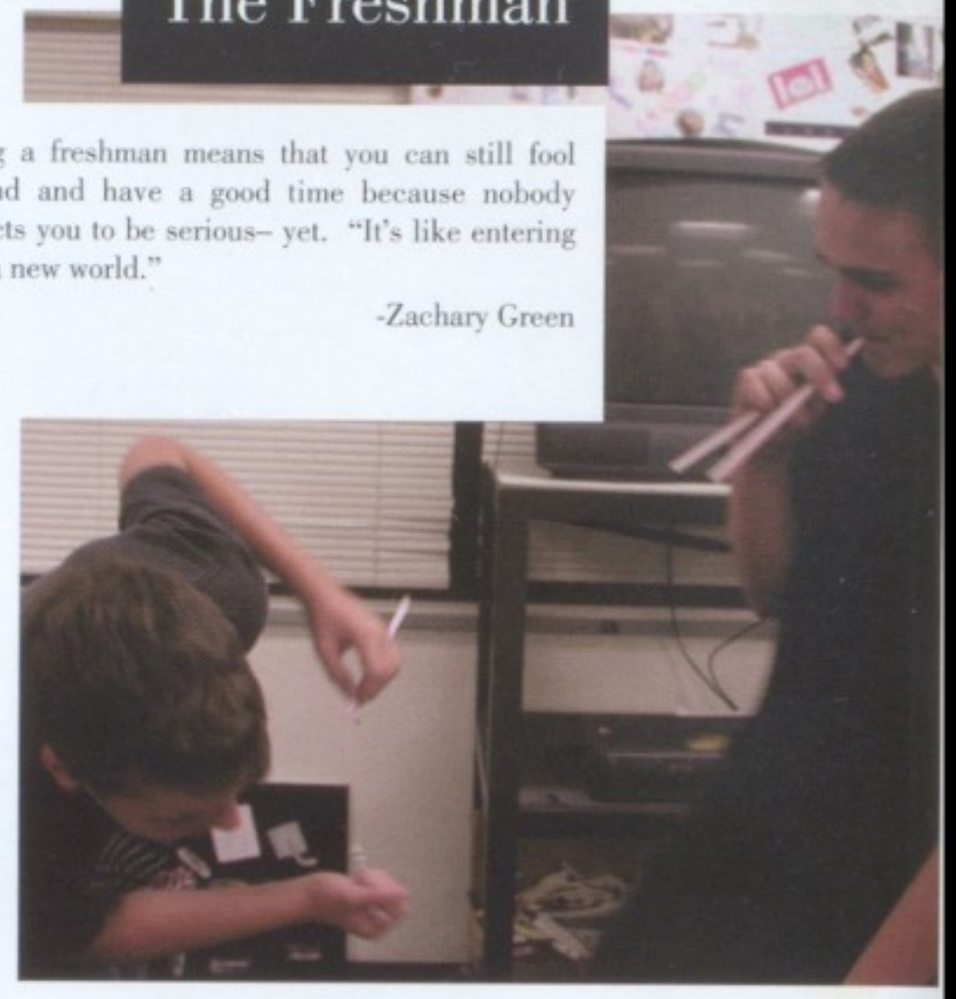
-Kellie Kareck

The Teacher

The Freshman

Being a freshman means that you can still fool around and have a good time because nobody expects you to be serious– yet. "It's like entering into a new world."

-Zachary Green



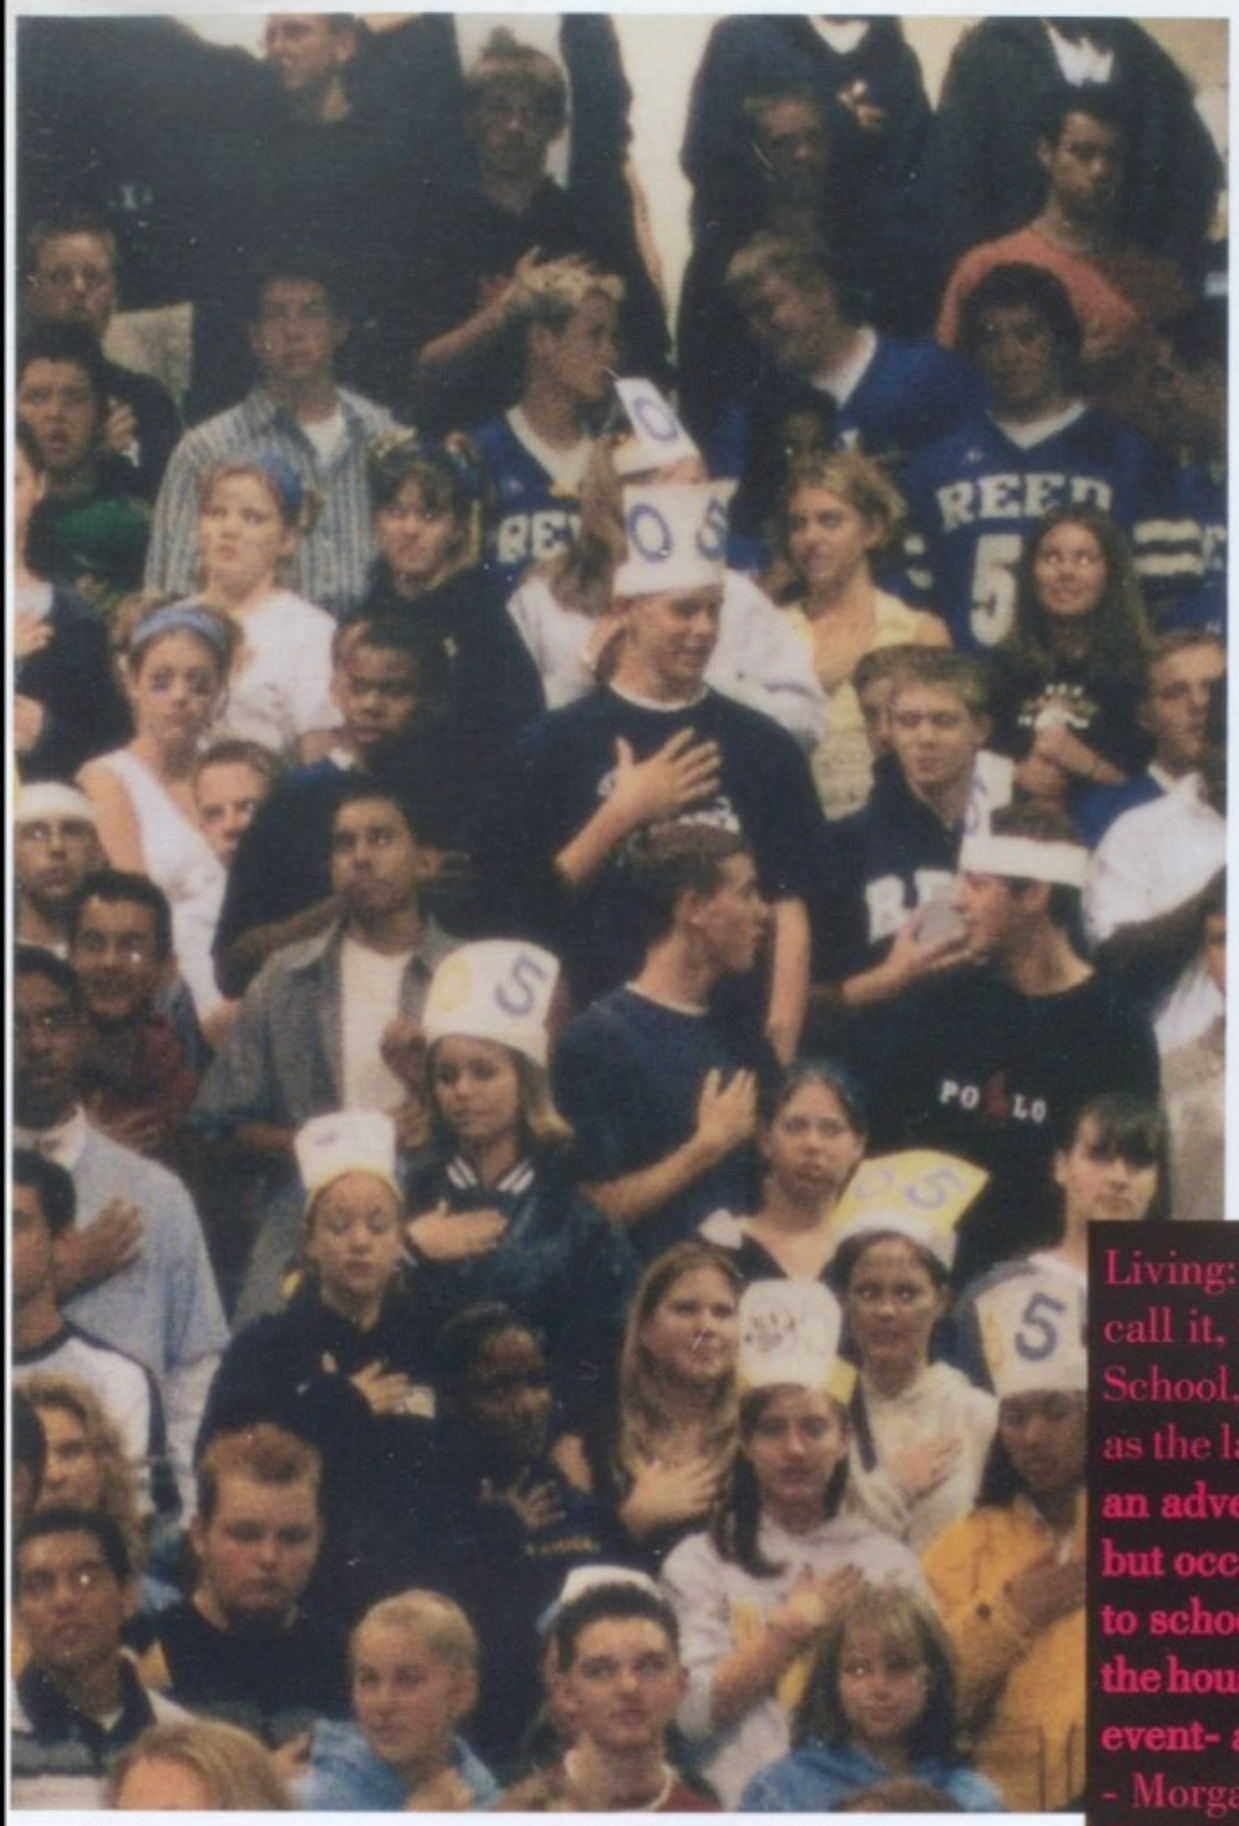
Finally... an upperclassman with so many more opportunities and privileges. But with opportunities come great responsibility. "It's a hard year. You have to pay more attention to your grades."

-Jennifer Onyeagbako

The Junior

All together

Seniors start looking at their options in We The People. This class is based on the constitutional debates that help prepare seniors for the real world they are about to enter.

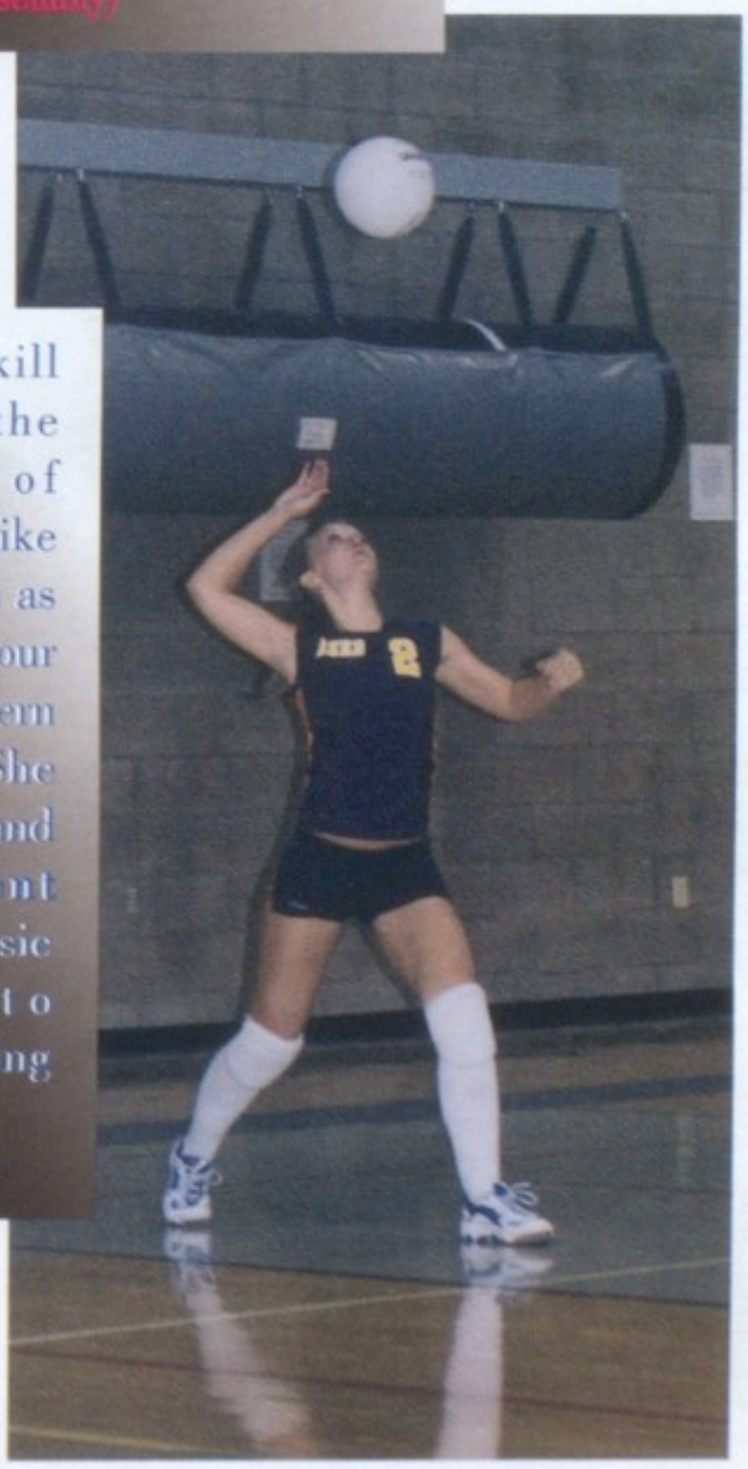


In black and white

Living: processing life, filtering air- whatever you want to call it, that's what we all do. Put together as Reed High School, we are a living, working organism that functions as the last step before "the real world." "Living at Reed is an adventure. Everyday is different, sometimes it's bad, but occasionally it's okay." - Jamie Patterson "We come to school probably because our parents don't want us in the house." -Joe Neville. "School, to me, is more of a social event- and I might as well learn while I am socializing." - Morgan Nixon

(Pictured: Freshmen at the New Year assembly)

People: moving, changing and acting weird are found all around here. In this photo, Ryan Mills is participating in SSR (Sustained Silent Reading) in Liz Walsh's English class. Mrs. Walsh had the students do this at the beginning of class to get their minds back to academics after lunch.



Sports: athletic skill being used for the entertainment of spectators. Here, we like to support and watch as the talented stars of our school become Northern Nevada's pride. "She (Jessie) is really nice and she's an excelent volleyball player. Jessie works hard to accomplish becoming better at the game."
-Kim Maldonado

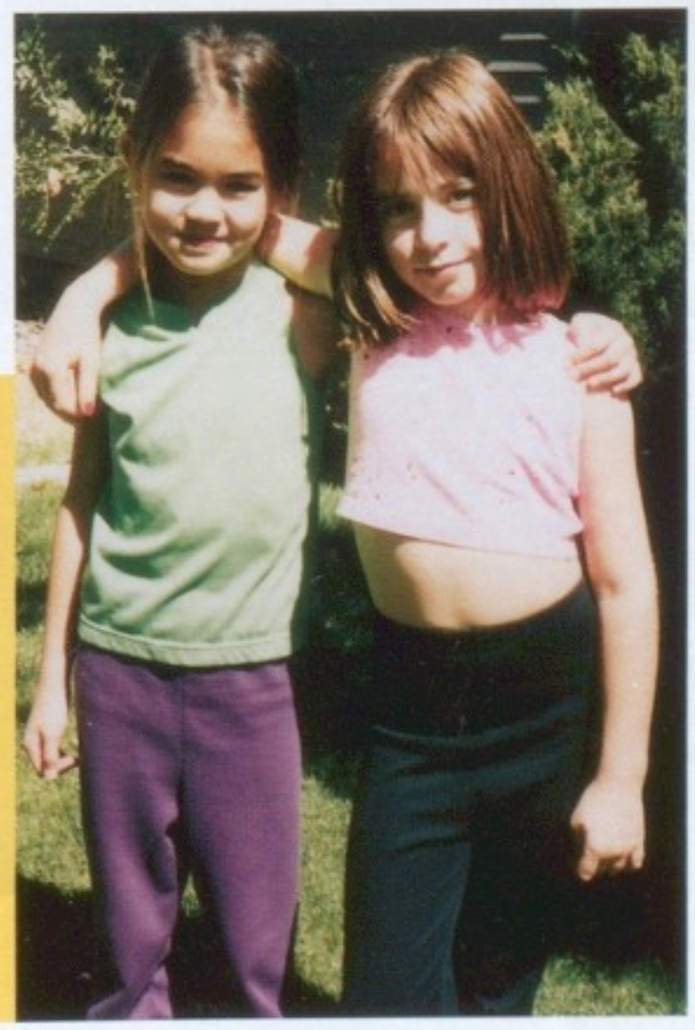
Friends since third grade, Erin Harney and Ashley Medeiros always have a fun time sharing lunch. Friends let friends dress alike. After all these years, they're still friends. Between the fights, misunderstandings and hardships, these friends have remained loyal.

The football team (a tight-knit family, as well as friends) at the Homecoming Assembly.

All grown up 13 years and counting. Having known each other since kindergarten, these best friends know each other inside and out. "Even though we're so different, we can still get along and always have fun," said Liz Johnson about her best friend Katrina Lim.



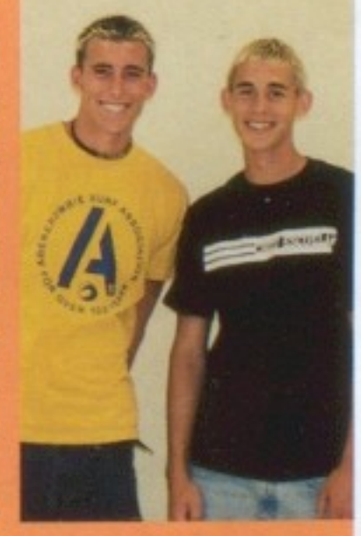
Anjuli Suttle and Cory Sudaria

"We're always together, we've never been in a fight and if we get in an arguement we're never mad at each other longer than ten mintes. We met on the first day of our freshman year. Everytime we are together is our favorite moment for all we do is make the best out of it." said Suttle.

Melissa Turgeon and Jackie Davis

Personalities will change but friends will usually stay. "We have been friends since we met at school in 5th grade." Said Turgeon. These two really get along well because they hardly ever fight and never tried to date one anothers brother. One of their favorite moments together is when they went to Great America. "We have known each other for four years," said Canale.

Vincent Licciardi and Garrett Moss



"We just go way back," said Moss on his and Licciardis's nine year friendship. They both love soccer and the only thing they disagree about is how hot Rhino is and how mean Garrett is. One of their favorite moments together is the night that they wrote senior wills. "The fact that Garrett doesn't care what people think and has been there since day one makes our friendship work" said Licciardi.

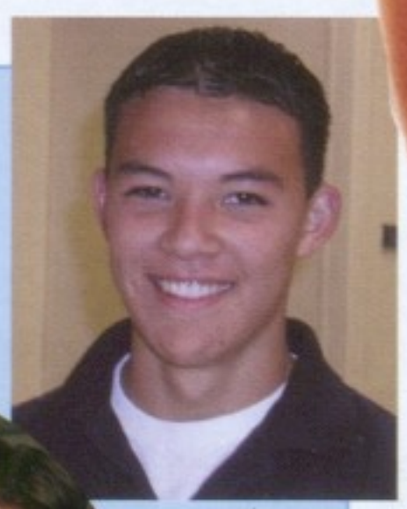
Family (fam´ ə le)

n., 1. parents and their children, considered as a group, whether dwelling together or not

All in the same boat...families share more than just DNA, they also share memories. When students have parents that work at the school, it can either be a joy or a burden. "The worst part is she can find out my grades whenever she wants to," says Sarah McDaniels about mother Cindy McDaniels, "On the other hand, I can talk to her when I need to. She can remind me about what I need to get done." Another benefit to having a parent on campus is, "She (Jennifer Cochran) has food in the clinic. I have my own ATM (Automatic Teller Mom) on campus," Joel Cochran said. Even though everyone has their complaints, most students enjoy having their parent around.

"The hardest thing about being a twin is that we got our driver's licenses at the same time and we're sharing a car for now. We used to fight a lot when we were kids, but now that we're older we usually get along pretty well." - Kellie Brown

"We (Chris and I) fight sometimes but he always wins." -Scott Ramsey ▼



▲ "To be honest, me and my brother have been best friends since we were little." Teresa Grillo

▲ "It's tight having someone to look over me." - Anthony Grillo

"We get along, she actually takes better care of me." -Kathy Gordon ▶

Sibling (sib'ling),

n. 1. a brother or sister. 2. Anthropological meaning: a member of a sib.

The more the marrier...there are many benefits to having a sibling at the same school as you, if one forgets their lunch money they can barrow it from the other, hitching rides from one another, or helping each other with challanging homework. The James sisters may not get along at times, but Brittany will miss Jennifer after she graduates this year. All around siblings at Reed find it more enjoyable having someone to share their trials and tribulations with. High school is a difficult time but having someone you love to support you makes the years go faster. The best part of having a sibling is "Having someone to look up to!" said Alana Reid.

"The best part about having a sibling is that you have someone to grow up with and you share alot of great memories together." said Chelsey Reid

"We get along really well. Except he's always late for school and that drives me crazy because I have to drive him to school."
-Liz Johnson

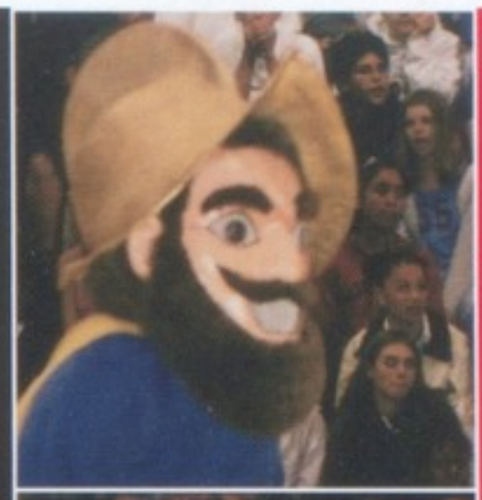
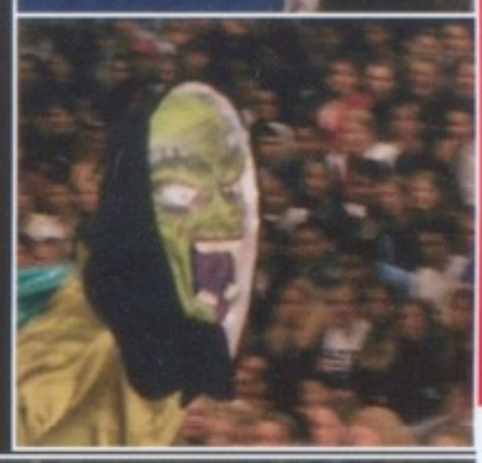
VARSITY FOOTBALL SHOWS THEIR SPIRIT. The coaches asked the team to share the spirit by lending their away jersey to a teacher of their choice. The teachers were then asked to sport the jersey during school on game day. "I gave my jersey to Mrs. Sebring because she is my favorite teacher," said wide reciever Jason Davis. Sharing the jersey must have worked because it led us to a 28-7 win over the Fallon Greenwave.

WHAT BREAKS GREEN? Of course the answer is Reed. The Raider mascot took on Fallon's mascot the Greenwave in an one-on-one wrestling match. These two battled is out at nutrition break during our Fall Homecoming Week. The Raider also surprised the Wave at the assembly when the Mystery Machine came to save the day by helping our school to find the meaning of being a spirited, supportive, and hard-working. The skit brought many cheers from the crowd in a race for spirit points. "That Wave will never beat me! For I am a beast!"said the Raider.





Wave For Spirit

The whole student body stands up in a screaming cheer as the Raider Mascot runs around the gym to see which class has the most spirit. The Homecoming assembly was kept pumped up by the fun games, the cheerleaders routine, the Cricket announcers and the Scooby Doo Team. "I thought the whole Scooby Doo idea was really cute. It helped pump up our Senior spirit." said Brittany Pearson.

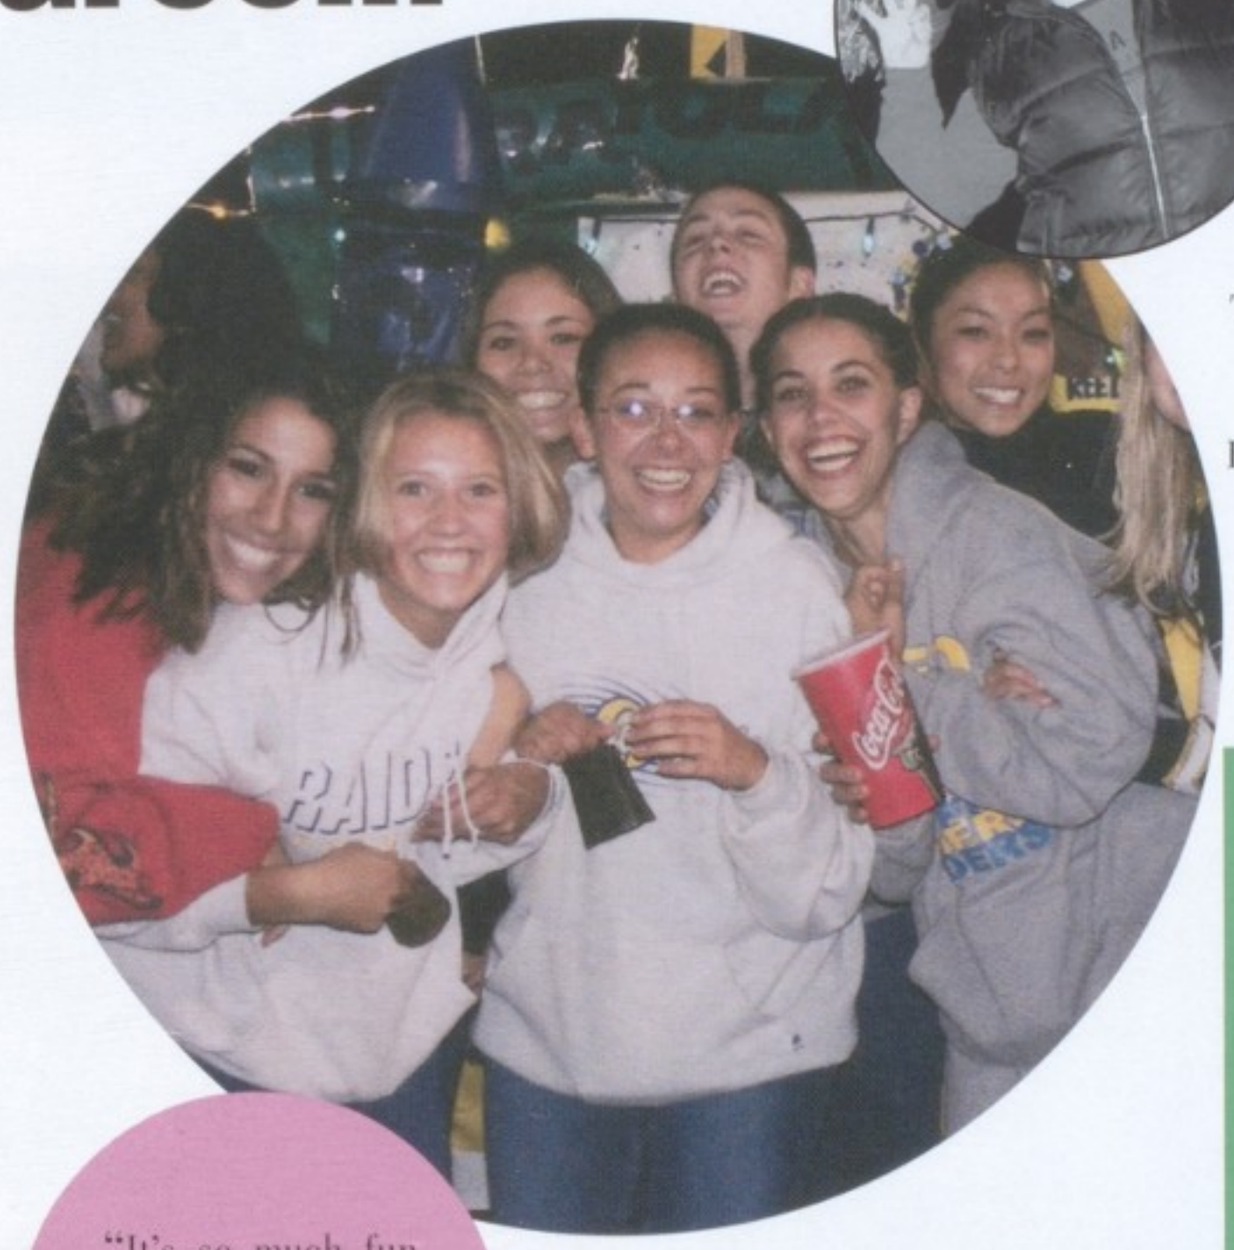
Express Yourself:

Halloween is a time to express yourself as well as your alter ego. You could be somone you admire; like Mark Dahlgren and Erin Gallo as superman super heros. It could even be another side of yourself. Like these gangsters; Aria Greenan , Jessica Cate, and Kimmy Armas. Occasionally, it's just as much fun to be something out of the ordinary like a crayon that's so original; Heather Mason, Andrew Highison. Heather Wirtz knows how to scare the crowed in her vampire gown.

What Breaks Green?

Home coming night.....



Reed HighSchool came together and to show school spirit and support their football team the night of homecoming. Cheerleaders cheered their loudest, fans rooted non-stop, the band played at any chance given, and the Varsity football team worked their way to a victory against fallon. Together we all broke green to make the theme for the week a meaningful one.

Each class had the oppertunity to decorate a float to be presented during the homecoming game. "It was great getting together with our class and representing our school pride," said Brittany Davidson of the junior class of 2004 who won the decorating contest.

The candidates

Fall Homecoming candidates share their interests in school and life.

"I was really anxious to give the queen her crown and I hoped I didn't trip on my face carrying it to her," said Kim Evans.

The student body nominated Ashlee Maldonado as a candidate beacuse she is a friendly girl who, for the past couple years, has spent tme coaching the Cardinals cheerleaders of the Pop Warner football team. "Althought I do not cheer for the school anymore, it was a big part of my life and I like coaching because it is fun," said Ashley.

Mindy Eustaquio is a spirited cheerleader for the varsity squad and loves shopping and hanging out with her friends. "It is important to have fun and enjoy time with your firneds," said Mindy. That is why so many of her friends nominated her.

She is highly committed to student council and works hard to bring spirit to the school. She is a hard working student with a promising future.

Being nominted was just another addition to all the things Michelle Barthuly has experiencedat this school. She has been on the dance, cheerleading, and drill team to begin with. Now she activly participates in student coucil and more. "I love to be a part of as many things as i can. This school offers so much there is no end to the possiblities," explained Michelle.

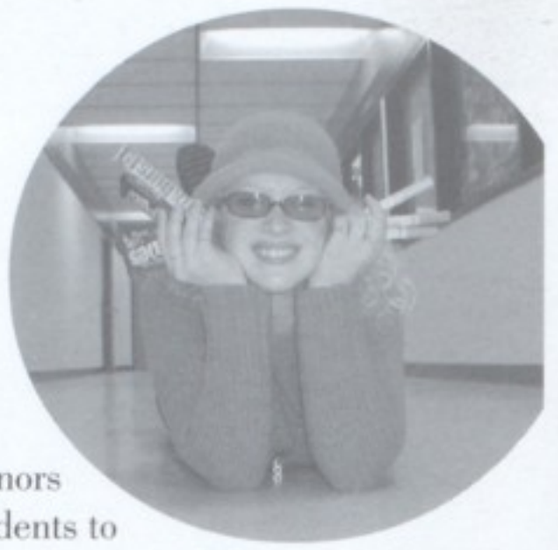
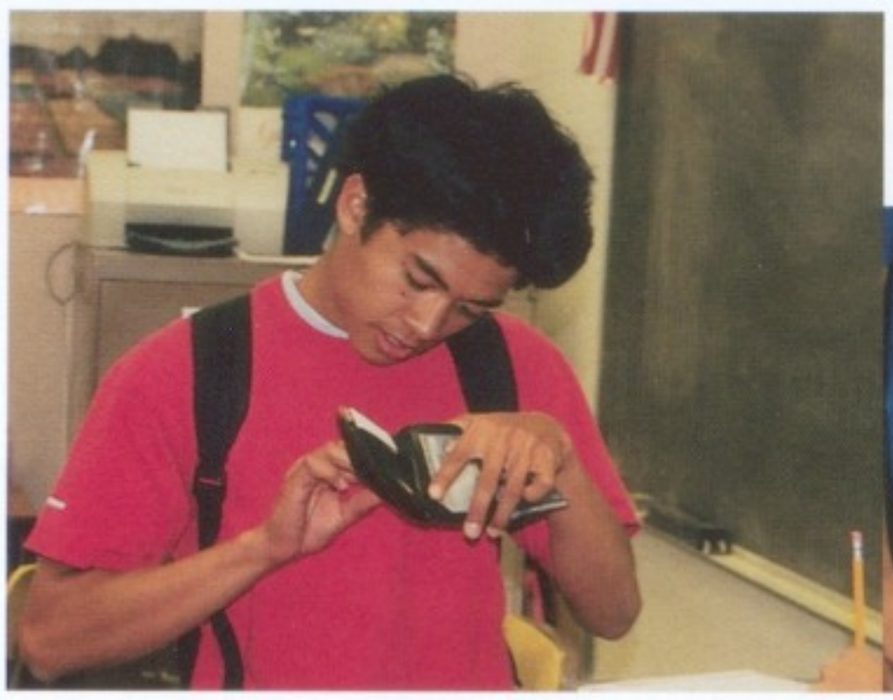
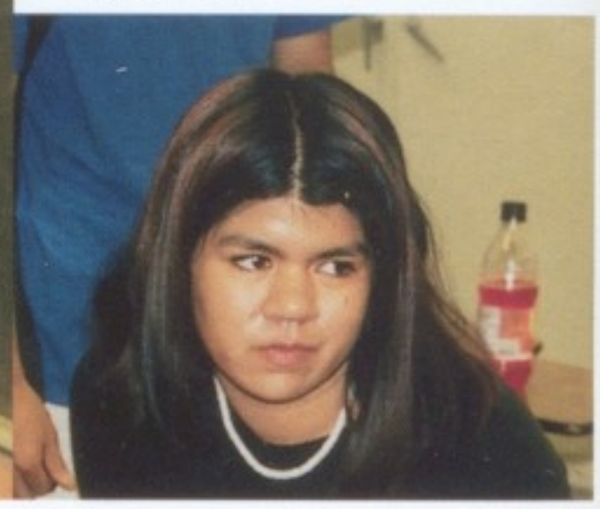
Investigating the Possibilities...



Helping ourselves and others.

What will you do? Organizations such as National Honors Society, Raiders Reching Out and Science club help students to see what they can do, especially students who like to know their possibilities, and keep busy. Take National Honors Society, as an example. The members, new and old, participated in events around the neighborhood like the Halloween Fest at Jerry Whitehead. The elementary school kids enjoyed their company as well as their help in various activity books and had a very "giggly" time.





An Honorable Society

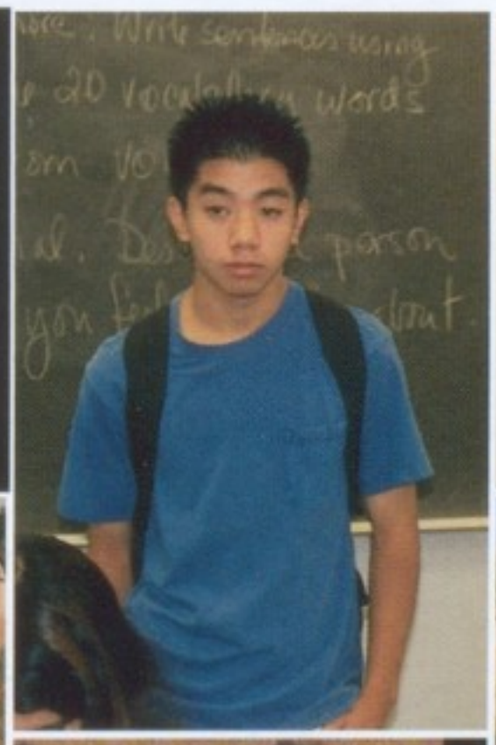
Right On! Various activities receive recognition through ceremonies, announcements and sometimes even assemblies show off their achievements. Clubs are an interesting way to get involved at school. In fact, most of the students involved in clubs are active in many other clubs and extracurricular activities. The strategically planned meetings do sometimes overlap but that is just part of the fun of learning to balance the business of every day life.For example, take students such as Kendall Hawley (above far left), Billy Kuykendall, Beth Parawan and Eve Chung (above left), Christie Forbush (above right), Katie Smith (bottom right) and Krysta Hodgins (bottom left). They keep themselves busy with activities as well as cheerleading, drama guild, visiting universities, and student council. Talk about a day job...

Slip and Slide! Tyler Bickerton and Tyler Gayton journey through the Sparks Ditch taking water samples. The Science Club memebers tested this water for various poisons and minerals. The results of this specific experiment brought laughs along with disgusted composures when the members found the truth of how clean our water is. The organization concentrates on the environment of the Sparks area and investigates possibilities of what might really be in the air we breath.

Lend a helping hand... Key Club members listen closely as they discuss future projects. The members worked hard on several local projects including the Halloween House at Alf Sorenson. They also participate in organized walks such as The Cure Walk and assist in several fundraising events. The members feel that it is part of their duty to help their community and suggest all teens do the same. Out of the kindness of their heart and determination to make the world better, the results are always a warm smile and gratitude with a positive nature. Pictured at left: JR O'Grady, Rusty Shepard.

Explore all you can- while you can.

Clubs at Reed high were designed to not only allow students to have fun in a safe and enjoyable way but also to allow anyone to explore options that can help to shape their future. Clubs like those on this page look good on college applications AND benefit the student as well as their community. What better way to help yourself and others than to have fun with friends while looking good.



"I joined A.O. because I thought it would be fun, and it's like Jeopardy!"

-Billy Kuykendall

"I join clubs to be involved in my school and to keep busy."

-Wendy Wang

Honor, pride and representin'. ROTC members join because of interest in the military, or some enjoy the Military and Navy Balls. Oppurtunity-taking Sandy Griffin said, "It means respect to those who are under me or above me. This unit has taken the key to being proud." Zach Baskara holds the honorble position of Brigade Commander, acting as a leader the entire county. He is the first Brigade Commander to represent this unit in the 29 years of its existence.

Listen up! NJROTC is a very serious event to those who are involved. They often endure harsh drills to prepare for events such as the parade held in October, and they have the ability to focus on what they are told. Still, they know how to have fun. The cadets are always filled with laughs and smiles. Justin Norton shows his focus. Top Stafford puts the line back in their place. Art:

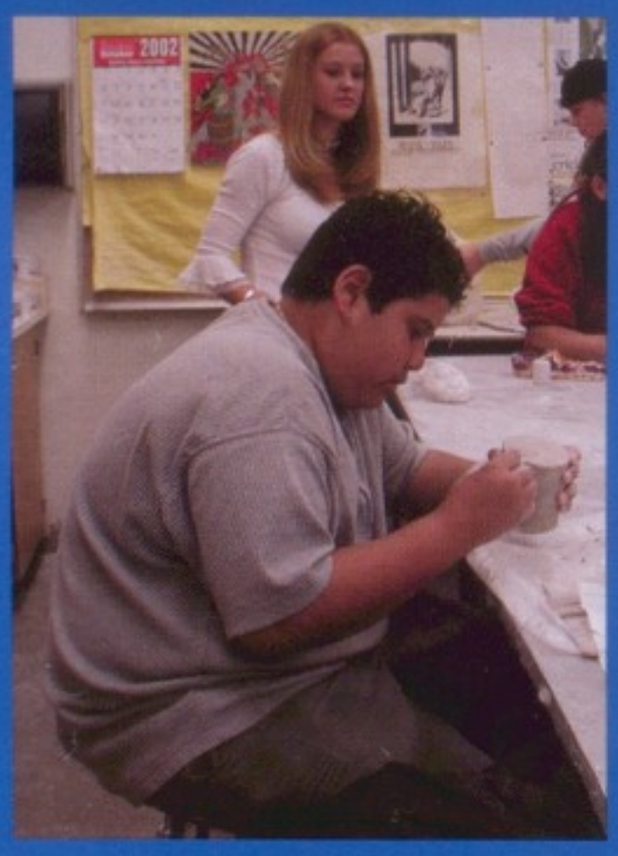
art, n., the production or arrangement of sounds, colors, forms, movements or other elements that affects the sense of beauty.

"My favorite part is glazing, you never know what the piece is going to turn out like." said Rachel Escorial.

Travis Burroughs starts to paint his pot before firing it. Painting or glazing can a two step process. Students either can paint their pottery with the glaze in the paint and fire it, or can do more detailed work. But if they are doing very detailed work they have to paint it, fire it, put a seperate glaze on top, and then fire it again. Many times the paints change colors when they glaze, and they get a different look from what they thought they were going to get.

Amy Lim begins working on a new piece. T-he students have so many great experiences in the art classes. It helps them to show their creativity through many different ways. Lim said her favorite part of ceramics is, "Throwing on the wheel because I get to make things."

Jose Lopez works hard on his piece during class. Ceramics is a loud upbeat class that the students really enjoy. It's a good way to develop new talents, and it's fun. Lopez said, "I like the experience of making suff."



Megan Stevens begins to carefully chop the walnuts for her the bread. Her group experienced many difficulties at the beginning of the year. Stevens said, " The coffee cakes were the best. It was the one thing that actuallly turned out right."

"And I quote"...

This big horn sheep was one of the two sheep that were sent to Nick Osborne and Meghan Lyons.The Reno ARTown sent out 25 sheep to be painted. Lyons' sheep was sent to Washoe Medical Center, while Osborne's can be seen in the art hall here at school. 3. Molding for sucess. Director Mr. Haun

Collin and Toby Marble

Every Fall Play that we preform is amazing. This year our cast performed Lend Me a Tenor. Although the cast was small it didn't make a difference on the amout of people who showed. Some people even found themselves going back a second time to watch a different cast perform. That night we doubled up. Every person on that stage deserved there hights of fame. None of this would be possible without a terrific director Mr. Haun, an awsome crew, and of course the incredible cast.

Why did you audition? "I auditioned because I love this play! I remember the first time I read it, I couldn't stop laughing!" - Andy Mebust a.k.a. Saunders

After the marching band season is over, band members strech their musical abilities by either continuing with their original instrument or trying out a new one. These kids test their various talents in numerous other band classes out side of the regular classes, Concert Band and Wind Ensemble, offered in school. They participate in either Pep band, that plays for the basketball teams, Jazz band, or Drum Line. Each offers either a competitive or fun atmophere, similar to that of marching band.

Extreme Sports:

Adj: Final; Being in or attaining the greatest or highest degree, very intense; extending far beyond the norm; radical

Extreme Sports! Both snowboarding and hockey, require stamina, strength and skill. Still, the NIAA will not approve either one as an official competitive sport. Any students interested in the sport are forced into a club and do it for the fun. Talk about love of the game.

Activities...

(ak tiv' i tēs) 1. An educational task that involves direct experience and participation of the student. 2. A specific deed, action, function, or sphere of action: social activities

Monday

The Pony Game was a very short but sweet activity. Everyone got together in yellow hall to play the game while singing "Ride that, ride that, ride that pony." and having a fantastic time.

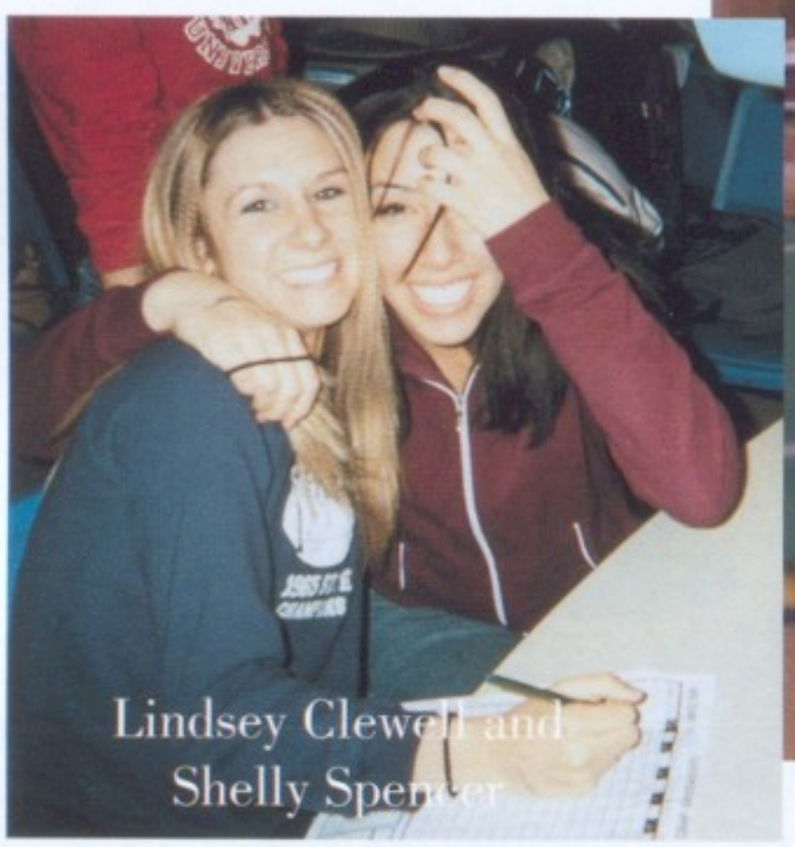
Tuesday

Jam the Gym. The boys varsity basketball team played a great game against the McQueen Lancers. A lot of fans came out to support the team and show their school spirit.

Wednesday

Bowling anyone? Many people showed up down at the Greenbrae Lanes. Whether a professional or a beginner, everyone still had a lot of fun. Also at nutrition break there was a syrup chugging contest in yellow hall. Now is that entertaining or what?



Lindsey Clewell and Shelly Spencer

Jaci Case

Thursday

Yet another great homecomming activity. Ice skating at the Rink on the River. Although the temperature was a bit low everyone still had a great time drinking hot chocolate and showing off their skating skills.

Friday

This was a jam packed day. At nutrition break we had Little Sally Walker, after school was the assembly, and the almighty homecoming game was Friday night against Spanish Springs.

Max McLaughlin

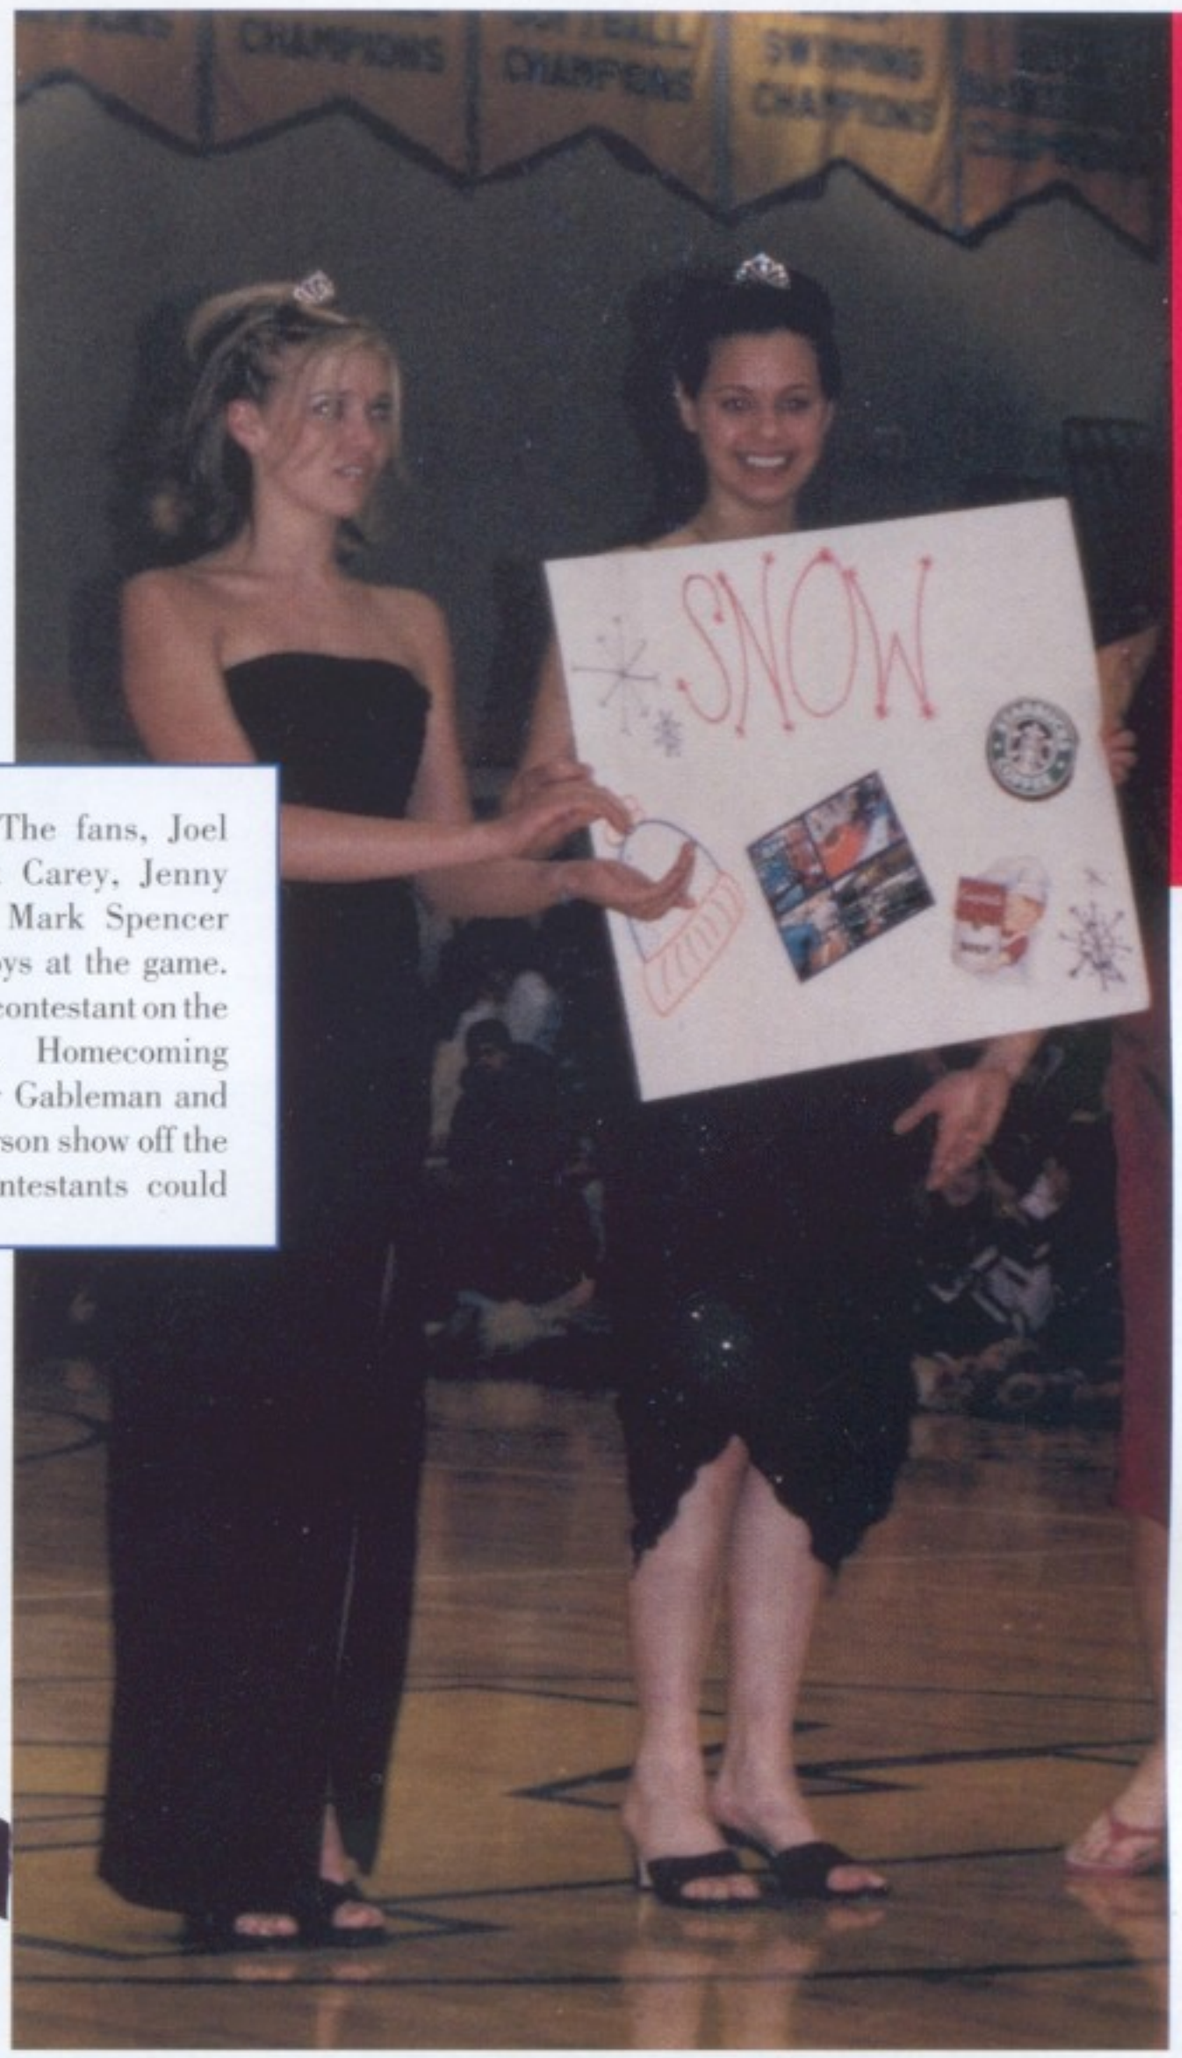
Getting a little more comfortable at the game, Les Ceresola kicks back in his blow up chair.

Go Raiders! The fans, Joel Cochran, Scott Carey, Jenny Apodaca, and Mark Spencer cheer on the boys at the game. You're the next contestant on the Price is Right. Homecoming candiates Jenny Gableman and Ainsley McPherson show off the great prizes contestants could bid on.



"What was the best part about hall decorating?"

King Tommy Bond and Queen Teresa Grillo

When Jennifer James answered about which cartoon character she would be: "Cinderella because through hard work, dreams really can come true." Teresa Grillo picks a classic princess too for her choice: "Belle... so I could live in a castle with my handsome prince!"

"I'm really, really cool. This is what cool looks like!"

-Max McLaughlin

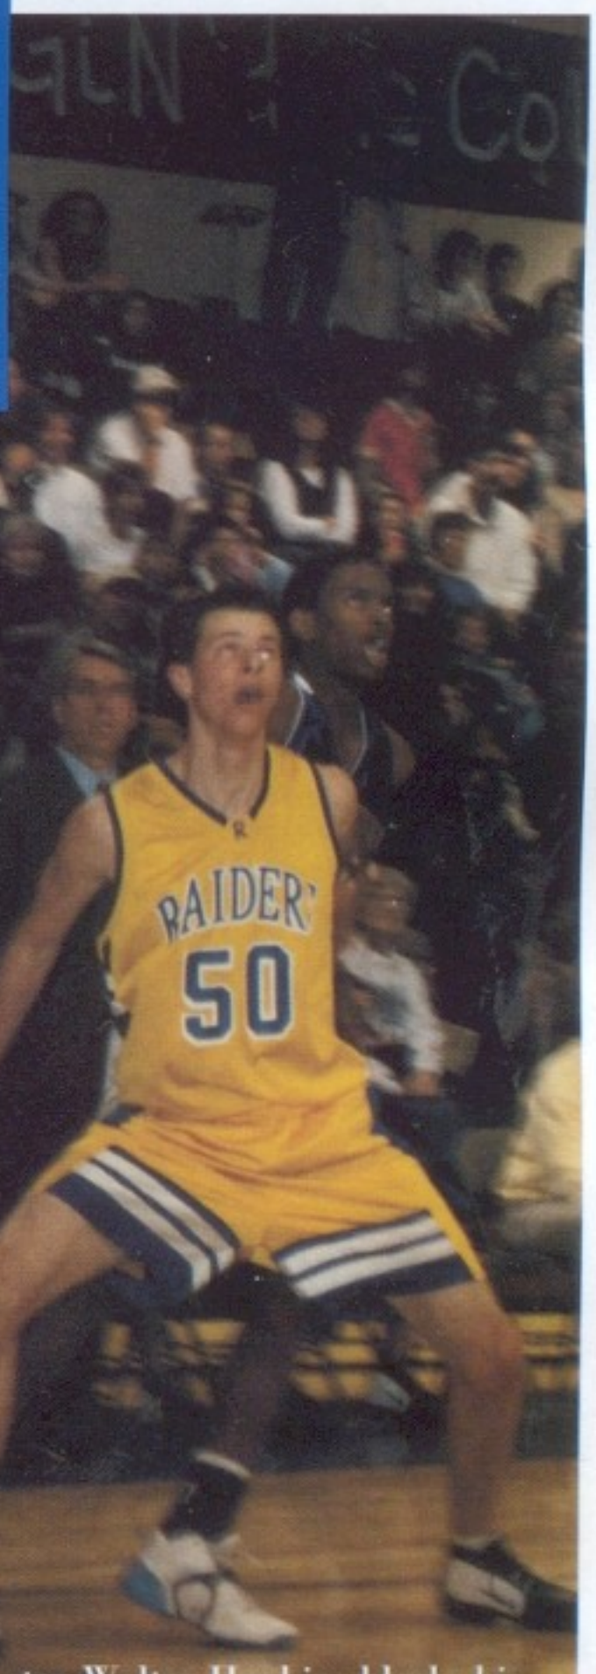
For Winter Homecoming the candidates filled out surveys and all of their answers proved one thing: they just wanted to have fun! With talk of world peace, superheroes and school activities, everyone definitely showed their spirit.

Game time

When the Cougars were schooled

"Hey! Did you see me? Take a picture! Put it in the yearbook!"
-Molly Demers

An accomplishing night to remember... A mixture of friends, family, competition and fun has always been and always will be the way to play. Game Night did exactly that. The crowd enjoyed an active game with plenty of school spirit (after all you can never have enough!) The half time ceremony held everyone as a winner and shortly after second half was a highly enjoyable school dance put on by the Freshman Officers. If Mom and Dad can't nod their heads in approval (the proud parents of Varsity's seniors did), then we sure can! It's just more proof that we like to party. Pictured to the left: Joel Cochran and Molly Demers yell their support. Pictured below: Lucas Delong, Walter Hopkins and Brian Vaden with proud papas.



Schooling the Cougars Let me show you how it's done...

Boys' Varsity tore it up as they caged the Cougars on Friday night with an amazing score of 95 to 70. With everlasting energy and pride, including a roaring crowd worth bragging about, the boys definitely claimed a glorious victory to name their school.

Basketball star Walter Hopkins blocks his opponent from getting the ball, using skills he learned at practice. With hard determination and a will to win, Hopkins strives to be a perfect player and a good asset to the team.

After a hard day at school, why not come home and play some good old Playstation 2? Ryan Johnson gets ready to play his favorite game, Grand Theft Auto 3 and kick back and relax. "I love this game, I can't wait for Vice City to come out," said Ryan.

Singin' in the shower, Cody Engebretson loves his shower radio. "I can shake my booty while I wash my body," said Cody. And at only five dollars it's a great deal. Game Cube, like it or not? "I'm not a big fan of Game Cube. The memory cards don't have enough memory. The controlers are confusing, and the graphics aren't the best I've seen. There aren't that many good games. I prefer Playstation 2," said Joe Neville.

Technology comes in many different shapes and forms. From video games, to scooters, to the kitchen. Technology is everywhere. You don't have to twist this guys arm to get him in the kitchen, Kyle Brazza is having fun in food prep. And I'm sure all the girls in the class doesn't hurt either. Where would cooking be without those mixers. Fun in the kitchen. Making cookies isn't boring for Alysa Gibbs. Riding along with the Raider! Jaming to the Tunes. "It may be small but it has a lot of power," said AJ Flock. Don't let the size fool you, this stereo is a bit small but it does get really loud. This one will keep your neighbors up at night. A little taste of the old school. This is the first of many Nintendo gaming systems. "I've had it for as long as I remember," said Steve Simon. It's always great to keep a little reminder of your childhood around. How do we get the ladies? We cook. Juan Lopez, Howie Kendrien, and Danny Patnude get ready to make some great tasting food. How would we ever be able to cook without the technology of kitchen appliances?

Entertainment

Different people have different tastes in entertainmeint, who's to say whats the best?

On August 31, 2002 Incubus came and played the night away at Lawlor Events Center. They are a thriving band reaching number one spots on the charts for many songs.

Jimmy Eat World is one of the newer bands that is becoming more and more popular. "I like them because they're poppy and because I wish my name were Jimmy Eat World."

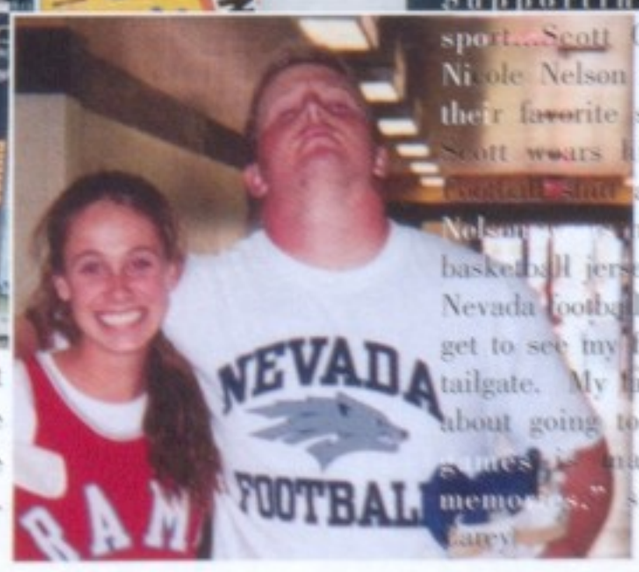
Fans keep the faith, finally will be able to savor World Series after wait of 42 years

The Angels and the Giants, when both teams won their semifinal games the baseball world was struck by the interstate rivelry, all over Reno the Giants were heavily favored over the Angels in the World Series matchup.

The unpopular choice! As the series came to a close it was obvious that the angels would come out victorious, they beat the Giants 4 games to 3.

The play offs were easy wins for the Giants. The Giants beat the Cardinals in the three game series 2-0.

Another new entertaining hit is the DVD player. Just about every new movie makes a DVD to sell or rent. "Every movie I buy is a DVD because they have a better picture and because they are harder to damage than regular video tapes." - Whitney Tiner



Supporting their sport....Scott Carey and Nicole Nelson show what their favorite sports are, Scott wears his Nevada football shirt and Nicole Nelson wears her favorite basketball jersey. "I like Nevada football because I get to see my friends and tailgate. My favorite part about going to the Pack games is making the memories." said Scott Carey

Anyone could in this car, although he says, "I used to love my car untll I got bored with it and decided I wanted a new one." So if you see him in the streets give *him* a honk!

Tennis: (ten'is), *n.* a game played on a rectangualr court by players or tow pairs of players equipped with rackets, in which a ball is driven back and forth over a low net that divides the court in half.

Practice makes perfect. Kim Evans, Lauren Randolph, and Brittney Vaughn are working hard on their front hand, back hand, and serves. The team practices every day from 3:30 to 5:00 to make sure they are ready for the big match. This team knows the importance of practicing to make the winning serve.

Just for the fun of it, Hally Pridham plays a fun relaxing match with herfellow team mate. Unlike the real matches, sometimes these scrimages are more fun. Less stress and less fasted paced, it maakes the game fun again. Woah! What a great serve. Friends Teresa Grillo and Lauren Randolph are set and ready for the return. Although they are serious about their game, these two always find time to have a little fun together. Being on a team requires hard work and dedication. Many of the players of the teams began playing because they wanted a way to get out and enjoy the outdoors. "I started playing tennis because it was something to do, I contiunue to play tennis because it is my passion." *-Sean McCann.* Yet in playing this sport, the team has had a chance to grow together and to make friendships they may have otherwise not made. "My favorite part of being on the team was the boys. They were really cool and we had alot of good times." *-Jeff Hogsett*

Teams often have pre-game rituals, many think that by wearing a pair of torn stinky underpants, will bring them luck. "I personally listen to the song, 'Eye of the Tiger,' the day before the match." *- Miguel Ubilluz.*

Hans Schobert returns every serve in full force.

Tennis is a whole body work out, Sean McCann demonstrates this as he hits the ball back to his opponent.

Championship:

A competition, or series of competitions, held to determine a winner.

1. I got this! Running to get the ball in possession is sophomore Ashlie Brown. Their team has worked hard this season to reach their goals. "Our team works hard 110% of the time because we know that's what we have to do to be the best," said Brown.

2. Trick Move... All star Janay Stevens is a freshman this year and is a starter on the varsity squad. Here in this picture she is working on keeping the ball away from this defender so she can get closer to the goal and score. "I definately hope to pursue soccer in the future because I love playing the game and I know it's something I will enjoy playing for a long time," said Stevens.

3. Keeping a Tradition Going... Doing their trademark high five are seniors Erin Gallo, Jen Mavis and Jillian Harris. These three girls have been playing together on Varsity soccer all four years of their high school. "Every game the three seniors do a 3-way high five. We have been the only three on the team since our freshman year, so its good luck," said Erin Gallo

4. Down and Out. Senior, Jen Mavis, gets tripped up over Spanish Springs defender. The two teams battled it out Saturday afternoon, and our very own team came up victor. The new Spanish Springs school gives our girls some competition, but they feel their biggest threat to winning the championship was Douglas.

5. All work and no play. That's a false statement for our Varsity girls. This talented group can mess around and be silly, but they know when it is time to get serious. And they have an outstanding 9-0 record going into HDL playoffs.

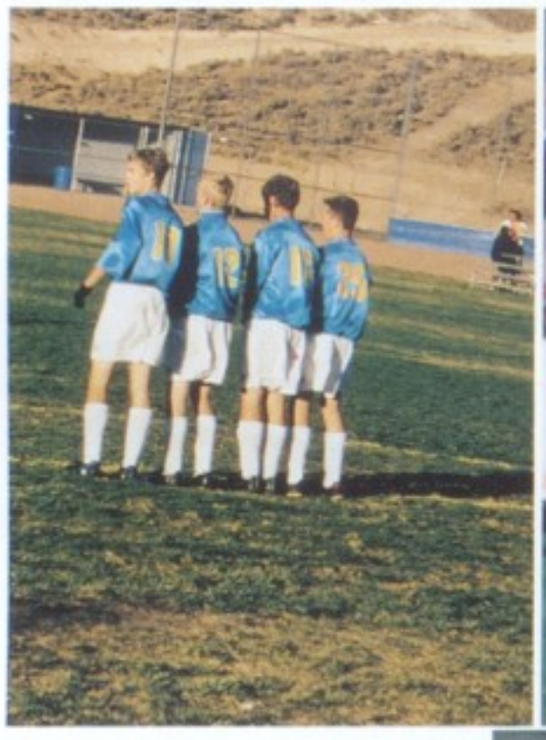
Practice Hard... Win BIG



Practice makes perfect. We see this in the hard effort and success gained from the boys JV soccer team. They worked hard running and playing everyday to gain a season record of 15-0-2. Volleyball

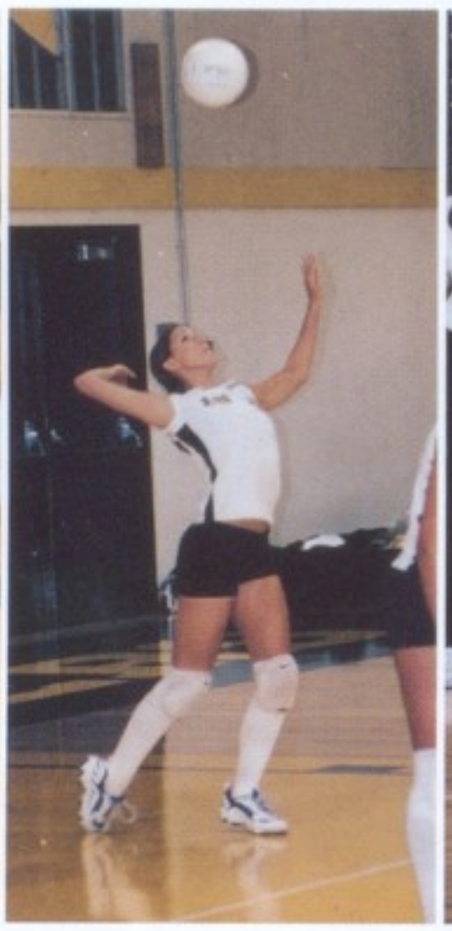
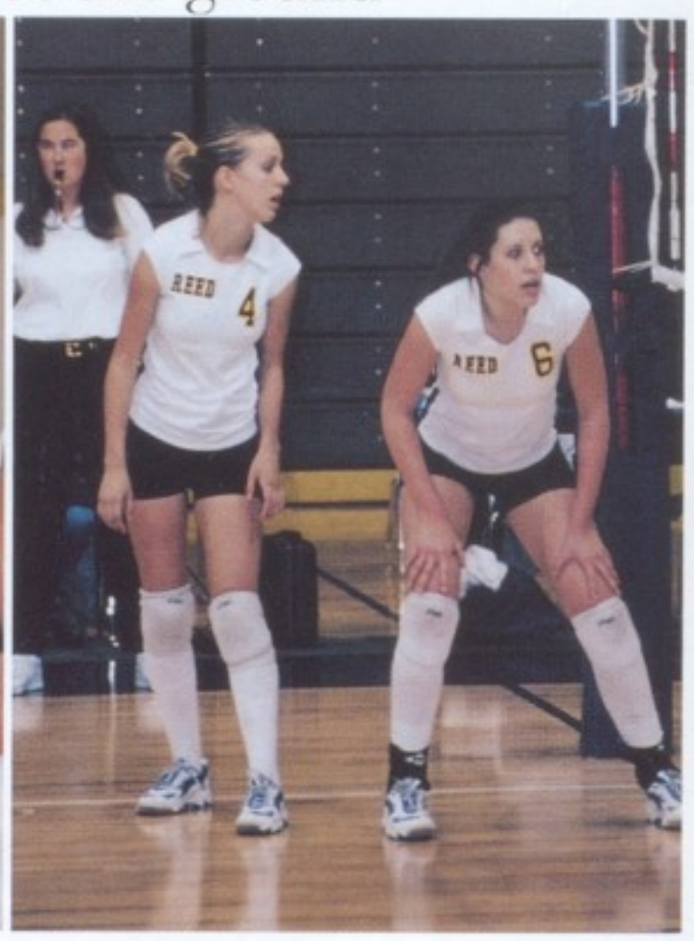
(vol'e bol'), n. 1. a game for two teams in which the object is to keep a large ball in motion, from side to side over a high net, by striking it with the hands before it touches the ground





Practice makes perfect, if the girls weren't playing a game they were practicing hard. "(We practice) every day except when we have games and on sundays. Practices are usually about two hours, sometimes they aren't." said Katie Jo Matthews. Durring practices the girls worked on everything from basic foot work to having fun playing games. "My favorite (drill) is USA because you can run all over the court and dive a lot. My least favorite (drill) is foot work because we did it everyday." said Katie Hogue.

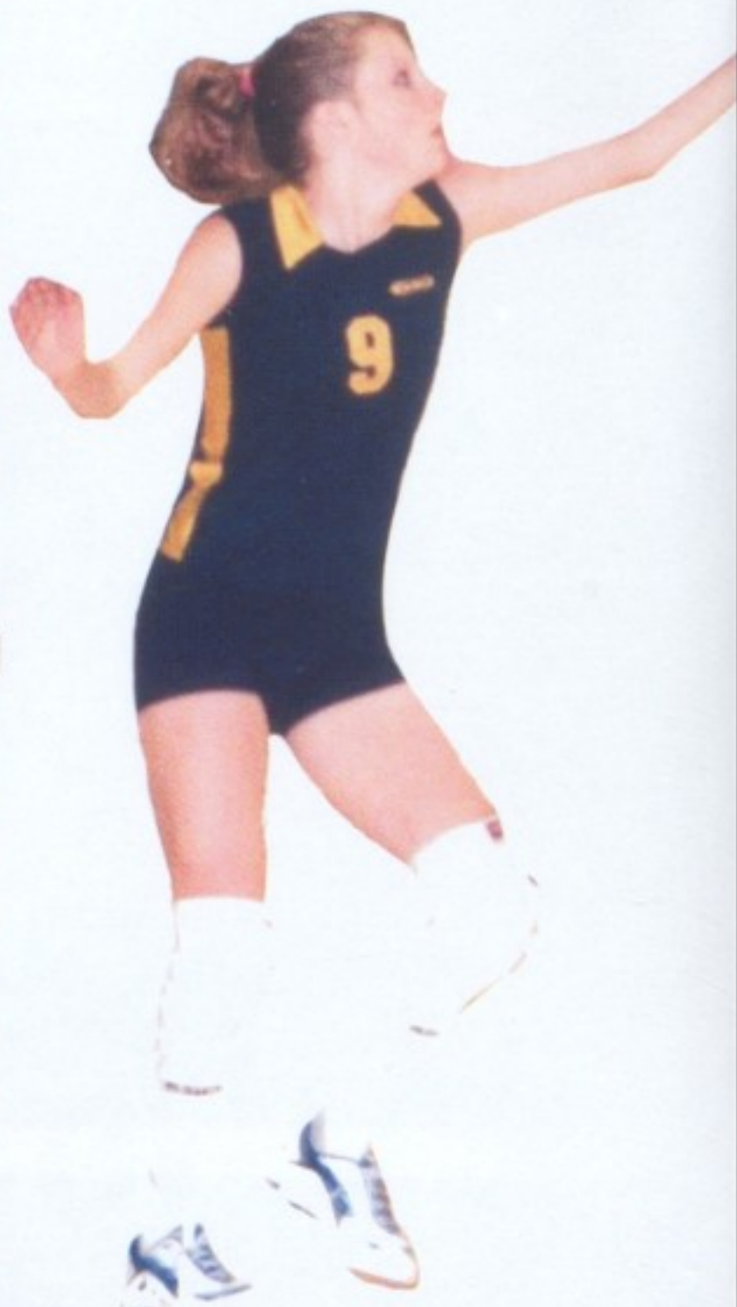
Our Set Prep Time...



Communication is the key, not only to doing good in a volleyball game, but also to having good friendships with people on your team. "At warm up we always tell each other our embarrasing stories from that day. We all are really open with eachother." said Kellie Soule. Hard work pays off. With practices everyday from 2:30 to 4:30, the girls have their favorite parts. "What makes our practices fun is our coach making funny comments or joking with us. We all get along great and crack jokes or do funny things all the time." said Sarah McDaniels. Having a good coach definatly influenced how well a team plays. "Coach Smith acted like he was in it to have fun too. That took off alot of the pressure." said Randi Porto. Of course one of the techniques they practice is how to work together as a team. "We work well together only when we talk to each other on the court. If talking between us is gone...well, we do bad!" said Kimberly Maldonado. "(Our team works together well) when we decide to talk and move around on the court," adds team mate Kellie Soule.

During volleyball, the girls have to learn to sharpen their hand-eye coordination skills. It takes a lot of coordination and concentration to play the game. It's very fast paced, and requires very quick reflexes. The girls practice everyday for two hours after school. They work on passing, hitting, and serving drills throughout the practices.

This is a sport that competes through out the year. They first attend numerous competitions with the marching band in the fall. Once winter comes around they become Winter Guard and they compete with the drum line. At the end of the year, they begin rehearsing and training for next year's marching band. These students are very dedicated and their efforts show on the field.

Dance. (dans) v. To move rythmically, usually to music.

Dancing in the street! The girls of the dance team love to dance, it is most often their passion. You can often cautch these girls dancing every where from their bedrooms to the hallways to in front of audience of almost two thousand of their peers.

Dance has always been a sport that has been over looked. People look at dance as something that you do to relax, which is true in some cases, but in most, dance is a sport. A sport that tries every part of your body, mind and soul. It is a sport that requires dedication, spirit and will power. The ladies on the dance team often have to endure long practices that work every muscle in their bodies. They must listen to the same piece of music over and over until they get their dance perfected. There are no second chances in a performance, so they practice like there is no tomorrow. Every practice is a performance of it's own.

Painting the town blue and gold the dance team shakes things up.

All eyes are on you. You are the only one that can save the game, there is no one else left. The crowd cheers as you reach up to put the orange ball into the hoop. You don't hear the crowd cheering or the sound of the buzzer going off. All you hear is the sound of the ball flying through the hoop. All you see is the sight of the ball grazing through the air to it's final resting place. Mark Burkhart knows full well how adrenaline can affect the way you play. He also knows how rewarding it can feel to play a sport you love. "I play basketball for the competition of the sport and the experiences you gain while playing with your friends."
-Mark Burkhart.

Basketball takes a lot of hard word and dedication. Practice makes perfect and this team has learned, there are no second chances. Achieving perfection for this team meant two to three hours a day, six days a week practicing drills and other important game tactics. Intimidation is a tactic often used by teams to scare their opponent. In order to over come the intimidation from other teams most of the varsity team has pre game rituals. "I lay out my jersey nice and flat and only put it on right before we go out to play."-*Mark Burkhart*. "I meditate, listen to music visualize, stretch and shoot around." -*Will Squires*. "I like the eat take a nap, meditate and listen to music."- *Robert Vega*. Along with intimation also comes competition. Some times competition can turn into something more. Every team has it's rivals and this one is no exception. "Everyone hates us! It is because we are good." -*Mark Burkhart*.

Putt - v. - A light stroke made on the putting green in an effort to place the ball into the hole.

Practice makes a better long game. Above, Frank Humphreys and Rory Hastings swing away on the range to prepare for their season. To the right, getting out of the sand is no easy task for even the best golfer. Players practice hitting out of sand traps and other difficult lies to make sure they are ready for anything that may happen in a real match.

Matt Moore gets set to drive the ball; it take a lot of concentration to hit the ball with accuracy and strength to get a good drive. Driving the ball,Jordan Naviaux works on his long game. Freezing while practicing his drive, Kyle Weeden endures the cold so he can get in much needed practice time. Practice makes perfect. All these players have been playing together since they were little leaguers. They work so well as a team, people can tell they've had a lot of practice together. "I've been playing for more than 10 years," saidKyle Bridgewater. "The hardest part of practice is when we do a lot of conditioning," said Cody Engebretson, pictured at left. Ten steps to make a track star

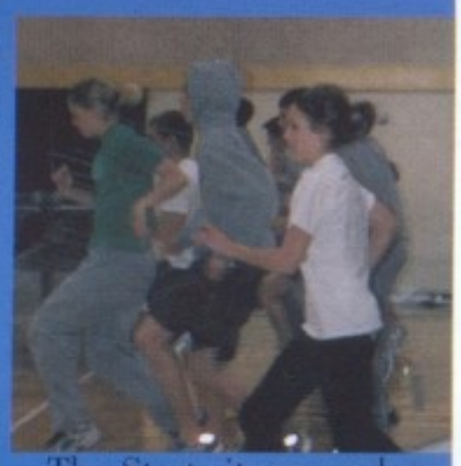
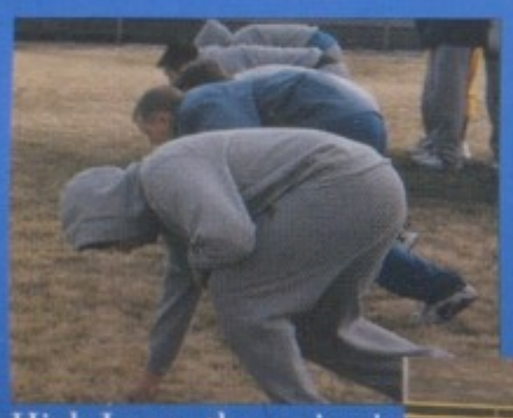
1 Pole vaulting- use of upper body strength as well as running capabilities to clear the bar. Needed to be a star.

2 Sprinting- the ability to do a short distance run in record time.

3 Shot Put- strength and timing are the major features of a good shot putter. (Pictured- Loren Moss)

4 Stretching- without stretching, athletes wouldn't perform at the top of their game. Track, requires an exceptional amount of stretching.





5 The Start- it can make or break a race. The start sets the tone for performance.

6 High Jump- the spring in a jump combined with arch and flexibilty to form the perfect jump. (Pictured: Kellie Brown)

7 Endurance- the one thing that keeps a distance runner going, the endurance to push themselves farther.

Christina Marchant

Jessica Burk

8 Attitude- the idea that no one else will defeat us, and accepting nothing less than the best.

9 Drive- to be the best. Without this, the track team wouldn't be ranked one of the best in Nevada.

10 Fun- the emotion that brings unity to the team.

The team takes off with racing for the win during their daily wind sprints.

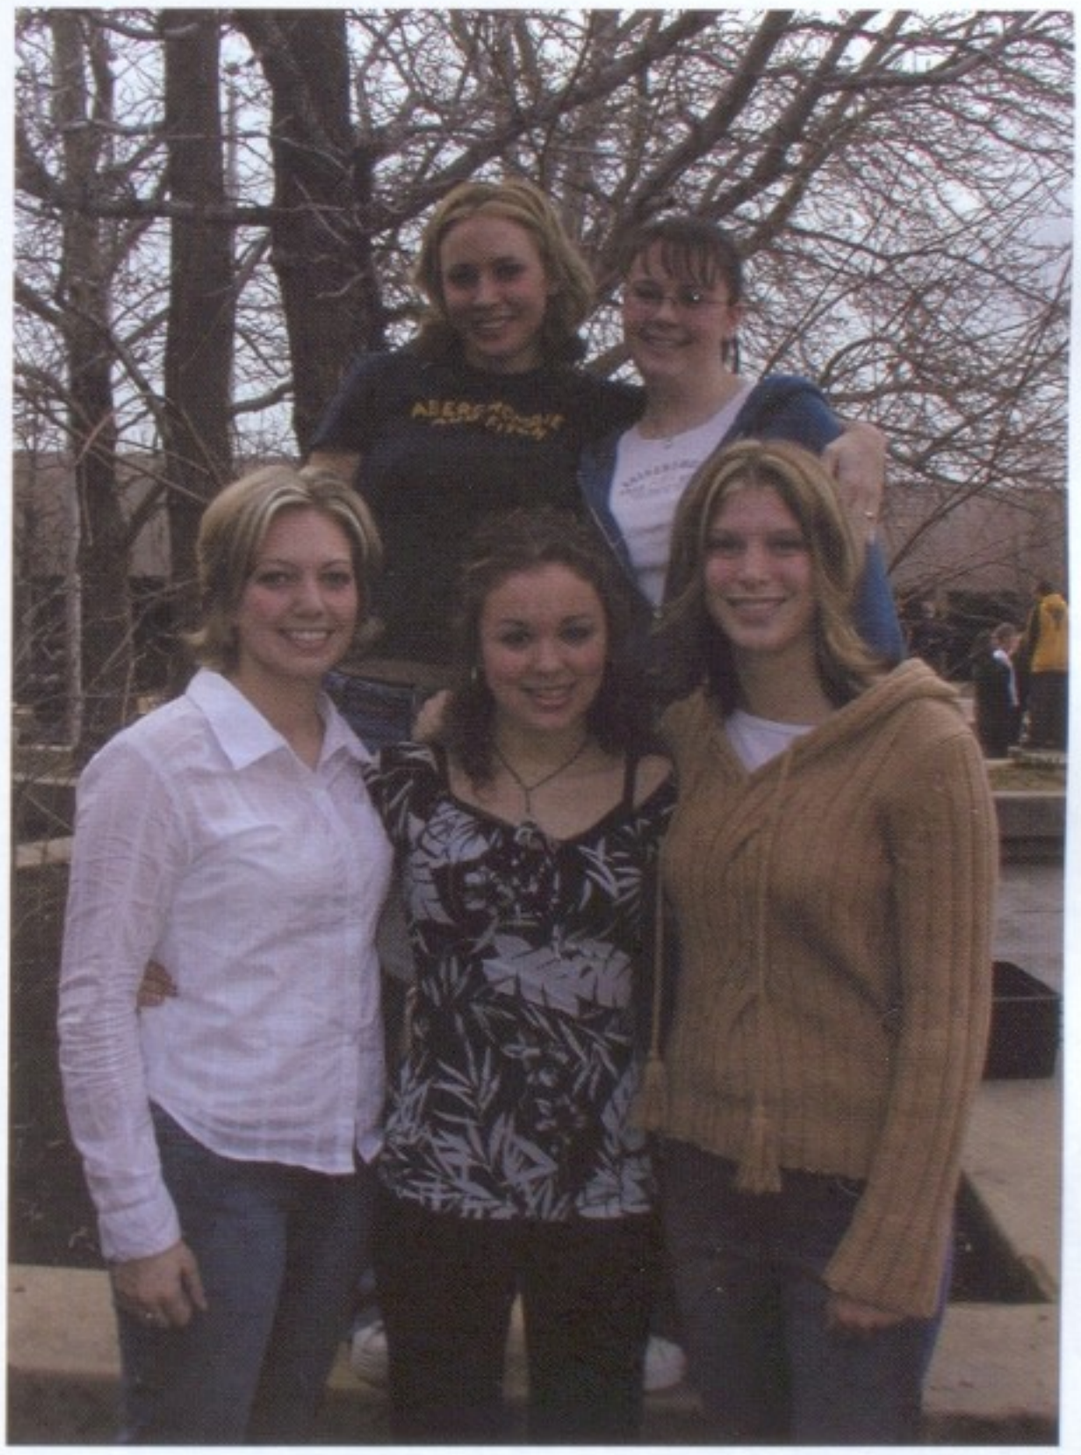
Excellence: (n) the state, quality, or condition of superiority

Walter Hopkins, Mark Burkhardt, Joel Cochran, KyleBarker

After four years, these young men know how to be leaders, both in the athletic arena and the classroom. "Athletics and academics require the same kind of dedication to be good." explained Kyle Barker. When playing multiple sports they know dedication is what it takes to succeed. From being involved in basketball since age four to beginning to run track four years ago these guys all work to be the best they can be. "Team work is needed to have success. No one can do it by themselves," said Mark Burkhardt. "I learned to be a team player, I learned that the harder you work the better you are," added Joel Cochran. Sports and academics aren't all work, most players do it for the fun as well. "I play ball for the love of the game, and the other two (tennis and track) are for fun and conditioning," said Walter Hopkins. Of course the physical end is always a plus. "[If it weren't for sports] I would not have the sculpted body I have," concluded Mark Burkhardt.

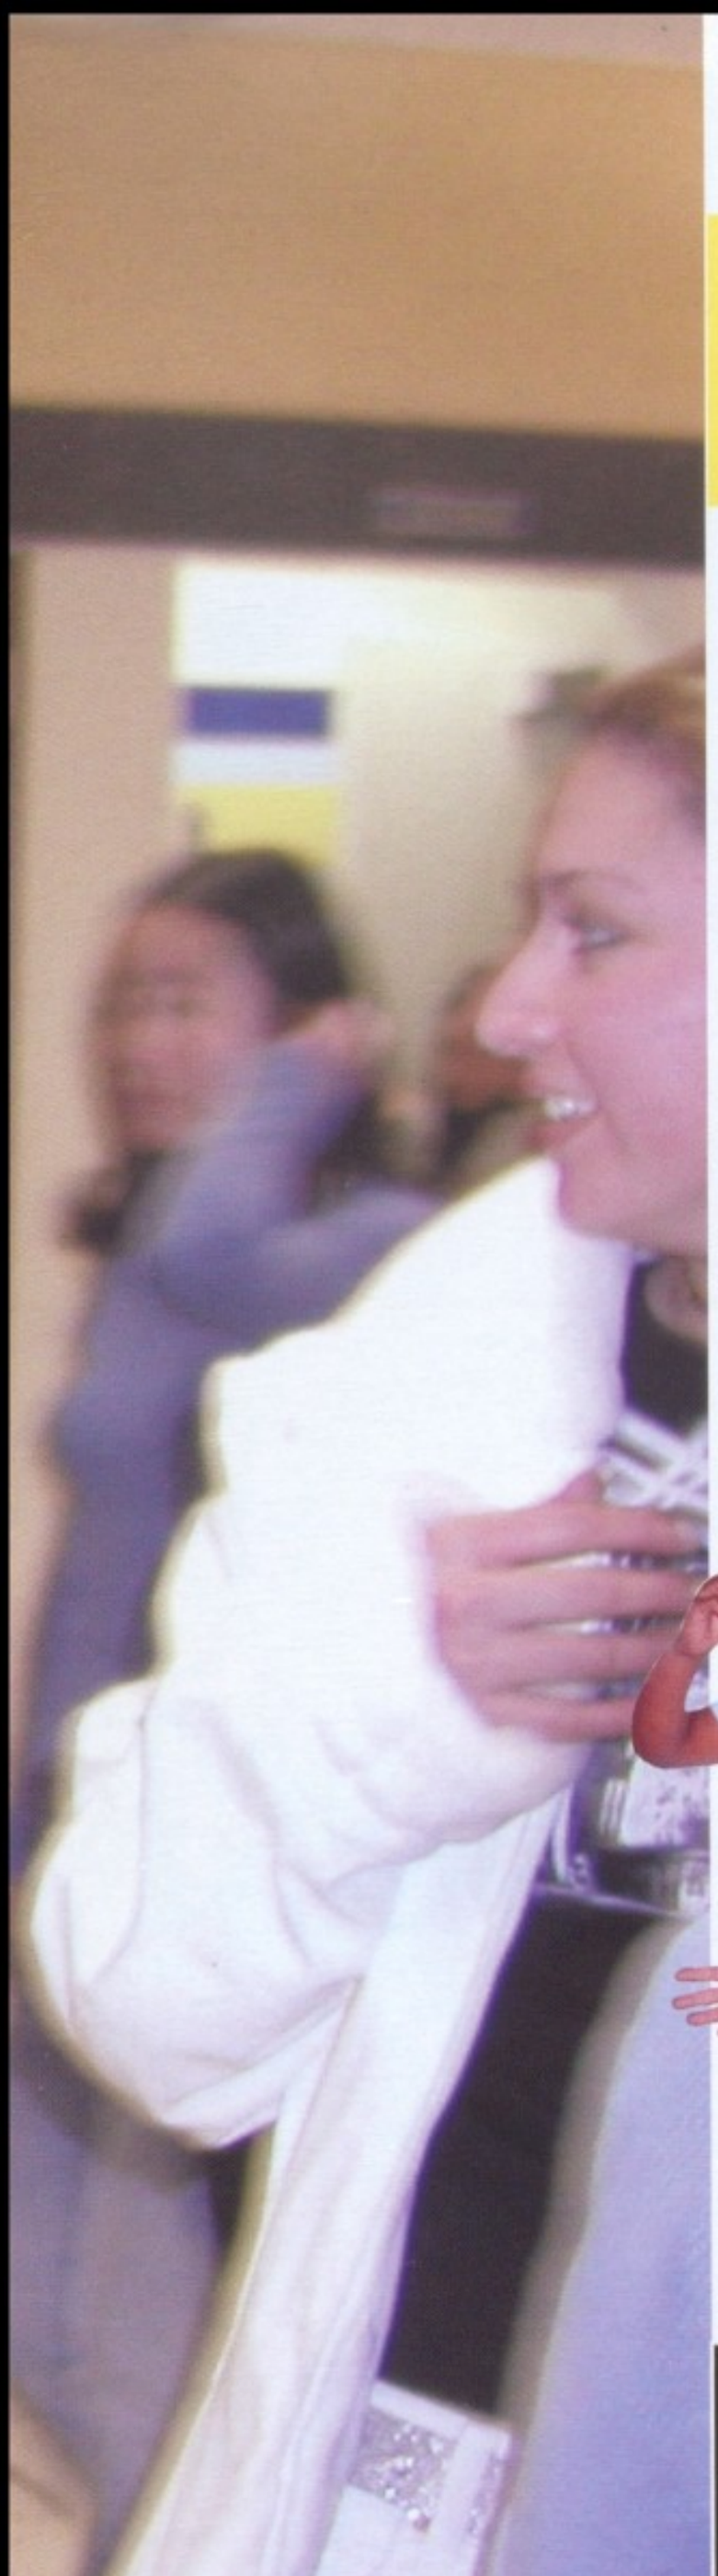
Erin Gallo, Jill Harris, Jackie O'Brien, Jaymee Clark, Kendall Hawley

They're not shy and retiring, like the ladies of the past. They're strong, intelligent, and up to the challenge of competitive sports: ladies of the new millenium. "Softball has shaped me, it challenges me to get my other things done and still try to improve in the game. I am glad I did play because you meet new people," said Jaymee Clark. A valuable item throughout high school is having friends and there is no better way to make new friends then by being involed in sports. "Playing sports has made me more outgoing. Being an athlete allows you to meet and become friends with people you normally wouldn't be friends with," said Jackie O'Brien. Not only do you meet people you also learn valuable lessons. "Soccer has taught me discipline and compelete determination. Having a team and sport to be dedicated to creates selflessness, teamwork, loyality, and ambition," explained Jill Harris. "Being a student athelte I have learned leadership, responsibility, and dependability." added Kendall Hawley. Erin Gallo summed it all up "It has always given me a challenge and made me learn many lessons of life."



People

Pē'pəl n. pl. : a body of persons sharing a common culture or inherited condition of life; the mass of ordinary persons; (esp) in high school-freshmen, sophomores, juniors, seniors and faculty



Excuse me... Can I just squeeze by you to get to my locker? The halls are overfull every passing period as 2,168 students and at least some of the 145 faculty, staff, and administrators walk from one room to the next. Reed was build to house approximately 1,700 students, and has been overcrowded for many years. With the number of people moving into new homes surrounding the school, there is no sign of a decrease in enrollment any time soon.

How long have you known each other?

"I've known Greg since the beginning of the year."

"Cause he's a hard core loser."-Greg Ashby.

Often times, high school students find comfort in their friends. Many freshmen, particularly find that it's safe to stay with friends in their new situation. Sometimes, the younger classes look up to the upperclassmen for support and advice on their lives.

Accept the unexpected

"Well, Maegen and I have quite an interesting story when it comes to our friendship-- She hated me when we first met! And all because of a stupid boy... but I'm happy to say that we got over it and are now the best of friends. In our free time we love to fetch water for the boy's varsity basketball team (a.k.a. be managers) and go dancing!!! Our favorite thing to do is laugh and be silly. Maegs is always there for me (and I mean always) and I love her. She is one of the most amazing people I've ever met."

Where do I start... We have been through so much, from visiting you in Texas to living in the same house together. There is just a certain beauty about you that I love so much. Without you I don't think I would have made it through my first few years of high school. You have been one of the biggest influences in my life, whether it be the kind, loving way you treat people, the way you live your life, or even the silly things like how you did your hair and makeup. I love you so much and I know that no matter what may come your way in life, you will handle it in your own unique way.

You mean the world to me and I love you with all my heart. I'm so proud of the young woman you have become.

Love Always,

My laughter and my tears.
There's something God has given me
A gift so sweet and rare;
A love for my sister deep in my heart,
A friend who will always be there.

Was it yesterday,
Your first graduation?
What of tomorrow,
Struggle or celebration?

Was it yesterday,

What of tomorrow,
Your life ahead, uncharted?

Was it yesterday,
When I held you and cried?
What of tomorrow,
I'm here, right by your side!

Remember, your journey has

Jillian Harris

She gave us one-girl shows at the age of 2, singing and dancing and the old tap shoe. The Judds had nothing on this little pill, anything could be a microphone for our little Jill.

Races up stairs and out in the park, 10 minute prayers in bed after dark. Mad little boys who just lost the game, "Good try boys," Jilli would claim.

Jukin' Jaguar Jilli with the ball at her feet, destroying defenses was her cup of tea. Academic honors piling up past her nose, tough as nails, soft as lace, our Jillian Rose.

-We love you!!

Mindy Eustaquio

To our dearest Mindy,

Time just flew by us in a flash. We can still remember taking you to grade school in San Diego, and to those numerous dance, piano, and swimming lessons. You went from a petite grade school girl and blossomed to a beautiful and statuesque Homecoming Queen finalist. We are very proud of you and all your achievements in school, especially Student Council and Cheerleading. We hope that you will be as dedicated and focused on all your forthcoming challenges in college. Always remember that WE LOVE YOU VERY MUCH! When children are born their parents dream about who their child will one day become. Today, you are a young man of great integrity, sincere compassion, and ever increasing self control. And today you have exceeded all of our hopes and dreams. May you embrace life with open arms as God leads you in the pursuit of fulfilling your own dreams and desires of your heart.

Over the years as we've watchd you grow into the beautiful young woman that you are today, our hearts have been filled with both joy and sorrow. The joy of seeing you develop into such a beautiful, loving person. The sorrow that comes from seeing you hurt. But as we look back on everything that has made your life what it is today, and look forward to what it may become tomorrow, we are filled with a sense of awe, of beauty and inspiration, and of everwhelming pride that comes from knowing that you are the kind and loving person that we had always hoped and dreamed you would be. Our wish for you as you go through life is that you laugh loudly, cry passionately, love completely, and never ever forget how much we love and adore you. May all your fondest dreams come true.

THINGS TO REMEMBER:

1. Don't keep driving over the same bump.
2. You may think you know what is on the other side, but you can never *really* know until you go there.
3. I will always love you, regardless if you drive in circles or stay forever in the same place.

Love,

Your Sister

People have been looking at our school **yearbooks** to help them remember for over 50 years. But our innovations have been progressing steadily forward for a century, since we invented the first **class rings**. In fact, Jostens is part of the whole school experience from start to end, even supplying students with **graduation products**. And when you're looking back to even your earliest **school portraits** that represent you at every stage of your life, well, we were there then, too.

Becoming a member of the elite "Top Twenty" is no easy task. These students have worked very hard to take good notes, study hard, write well, work out problems, finish labs and lab reports on time, and find a few hours here and there for a fulfilling social life. It's not easy, but ask any of them, and they will tell you how much being a good student has paid off - not just for scholarships and college admissions, but for lifelong success.

"I was kind of suprised. My family always encouraged me to do my best and I always did my homework," said Sara Bolingbroke. For most of the top twenty the rewards extend beyond their family and friends. "I was supprised that I was chosen, and I am glad that students who are doing their best are getting recognized in an honorable fashion," said Mike Zappe. "It's nice to know that Reed High attempts to recognize students who challenge themselves academically. Being in the top twenty reminds me that hard work is usually rewarded," added Annie Chung. Ryan Katausky was glad that his senior year was almost over and that his work was being rewarded, "I think that being in the top twenty is like being in the paramount tier of our school; a group of scholastically intense kids, whose efforts have finally been rewarded in this grand fashion. All of the worries, pains and ... dilemmas we've all suffered through are finally over; thank the Lord!" Similarly Eve Chung was glad to have her accomplishments rewarded by the school. "I'm happy to have been able to mark this achievement in my past. It will remind me that I can be capable and recognized for my work," said Eve Chung. As most of the top twenty would agree, their hard work and dedication to academic achievement has been well worth the effort.

Colophon (kol'-fon,-fn): An inscription placed usually at the end of a book, giving facts about the book

The Galleon was created on Macintosh computers (5 iMAC DVs, 1 G4 Tower, 1 Powerbook laptop and 2 New iMACs), using Adobe Photoshop 6.0, Adobe Pagemaker 6.5 and Josten's Yeartech 2003. It was printed on 100 pound paper with sewn, rounded, backed binding. It consisted of 352 full color pages with a 16 page World Book insert. Headlines were typed in Impact, while sub headlines and captions were typed in Bodoni Book. There are over 6,000 photographs included.

Film was purchased from COSTCO in Reno and Smith's Food and Drug center, while processing was done by Smith's Food and Drug center at Baring Village. Sierra Nevada Photo was the yearbook photographer. Most pictures were taken by staff members with Pentax cameras and the Olympic 3030 and Olympic 3040 digital cameras. Josten's Publishing Company in Visalia, CA printed the book. Books originally cost $60.00 and rose $5.00 at the end of each month through January when sales ended at $80.00. 1,425 books were sold.

Lizabeth A. Walsh, Certified Journalism Educator was the teacher and adviser. The staff was made up of: (two semester) Alicia Avilla, Shaylie Bernier, Lexi Brecke, Tasha Bronneke, Shayla Cain, Haley Carlson, Lindsey Christensen, Danielle Dendary, Sarah DiPrinzio, Jodie Garrison, David Huynh, Liz Johnson, Shawnice´ Kraeber, Jaime McManus, Morgan Nixon, Brittany Pearson, Kevin Picollo, Kim Stanhouse, Leanna Stephens, Kassy Taylor, Alisha Theofanides, Katie Thomas and Sarah Wilson. (one semester) Danielle Carriera, Brittany Davidson, Andria Edwards, Jamie Gunzel, Chelsie Riley, Tori Sims and Whitney Tiner.

School Principal: Mary Vesco; Asst. Principals: Al Babb, Jeana Curtis, George Hardaway Colleen Hoch.

Dean of Students: Dave Nolte; Asst. Dean of Students: Dave Sayer.

Our most sincere thanks to...

• Mary Vesco, Al Babb, Colleen Hoch, Jeana Curtis, George Hardaway, Dave Nolte and Dave Sayer (the Reed administrative team) for their support, understanding and kindness throughout the year.

•The front office staff, who handled and routed all of the phone calls and inquiries about yearbook purchases.

•Allison Lang and Katrina Lim, who donated their summer hours to assist in receipting hundreds of yearbooks during registration.

•The custodial staff who cleaned up after us during our deadline days.

•Gary Newell at Sierra Nevada Photo for all of your time and hard work on underclassmen, senior and sports photos.

•Jason Pierce, who continues to come back to help us learn new things about yearbooking and who brings us candy, despite the many times we've 'fired' him.

•Scott Sisk for spending countless hours on the telephone helping us deal with our crises.

•Smith's photo staff, who smiled even when we brought over 15 rolls of film in one day during a deadline.

•Scott Ramsey and Nick Sarlo who came in to help us complete spreads in a pinch.

•And, of course, the teachers and staff who were so understanding of our dealines and allowed us to interrupt their valuable class time.

Shades of gray

(grā) color. Of or relating to an achromatic color of lightnes between the extremes of black and white.

It isn't always in black and white. Everything we do as a school, as a team or as an individual isn't definite or isn't always the way it seems. As we look through the year, we find that many things look one way and end up another and it is only through living these events that we can tell the true meaning of that time. In our pursuit of happiness, it is key to remember that things won't always be as they appear. We don't dream in black and white, and we don't live in black and white, either.

Often, scores don't tell the story of a season. It is important to remember the skills that we've acquired as a team. It's important to remember as we reflect on our season, the comradarie and spirit we have inspired in the school as well as in ourselves. It is only through these lessons on how to be a team and how to work with eachother in a sportsmanlike environment to better ourselves and the world around us.

As we grow and develop in these four years, it is nice to know that we never will be one specific shade of black or white. We are all individuals and all people who have in some way changed the world we live in. We start as young, naive freshman and leave as confident young adults. It's an emotional roller coaster filled with friends, enemies, laughs and tears. It is the time when nothing is for sure and our futures are all still to be determined.

We hope that you enjoy the look back on this year and remember, as you're turning the pages that things aren't always as they appear. Each picture has its own story that isn't always easy to tell with words. Each page may be filled with one specific thing, but as you take a closer look, it seems like nothing is ever truly there in black and white.

Below- The year draws to a close as Kim Stanhouse, Sarah DiPrinzio, David Huynh, Shawnicé Kraeber and Brittany Pearson (the yearbook editorial board) take a moment to pose for a fun photo. "I love it when we show our true colors. That happened a lot this year," said Shawnicé Kraeber.
